Royal Palm Nurseries, 1912
TWENTY-NINTH ANNUAL CATALOGUE OF THE
Royal Palm Nurseries
FOR YEAR NINETEEN HUNDRED TWELVE

Introductory

"Ever since the world began, beautiful gardens, flowers, fruits and trees have been the unfa"
"iling accompaniments of intelligence and wealth. Perhaps the gardens also, (as has been said of
the public highways of a country), may be indicative of the degree of civilization that a nation
has reached. The lowest and most degraded tribes of savages depend for part of their existence up-
on the wild fruits, berries, nuts and roots, and make no attempt to cultivate and improve them, and
the most enlightened nations of the earth cultivate the food-producing plants in the greatest perfe-
tion, grow the choicest fruits in the greatest profusion, and the most beautiful flowers and trees to
delight other and higher senses than that of taste.

"Although the most beautiful gardens in the world are not (yet) in Florida, we are positive
that this is not owing to the will of her people, but to the lack of time and money necessary to
produce them. *

"It is with pleasure, then, that we send out our new catalog of plants—our 'junk-shop' of vege-
tation, to our friends and patrons. More pleasant still would it have been to have embellished
it with more complete descriptions, and with more new and original cuts—but we cannot overstep
the progress of a country, or attempt more than our patronage will warrant. *

"To our old customers, many of whom have helped us on with kind words, we extend the heartiest
thanks with our new catalog, and only hope that they may find such pleasure in the garden or
orchard, that, like Oliver Twist, they will 'ask for more.'"

Extract from our catalog of 1888, by the late P. W. Reasoner.

The subject for our cover this year is a charming view in Cuba,
of Royal Palms and Bamboos.

REASONER BROTHERS,
Oneco, Fla. Autumn, 1911.

CONTENTS:

To Our Customers................................. 1
Remarks and suggestions............................2 and 3
I. Tropical Fruit Plants and Trees.............. 4

XV. Tropical Shade Trees............................ 41
XVI. Hardy and Half-Hardy Shade Trees...... 43
XVII. Succulents and Epiphytes.................... 45

A FULL INDEX IS AT THE BACK OF THIS BOOK
Directions to Customers

Justice to our customers as well as to ourselves requires that we should ask careful attention to the following notes. Their appreciation will remove any occasion for misunderstandings, and aid in maintaining the pleasant relations with customers so much to be desired by all business men.

1. It has been repeatedly proved by cultivators in the States above Florida—both amateurs and commercial florists—that our naturally-grown plants (those produced without fire heat) are absolutely more vigorous, better rooted and healthier than those grown under artificial conditions from their start; hence are more likely to succeed under greenhouse culture or in the living room than weaker stock from hothouses.

2. Our location here in South Florida, where we have excellent choice of soils, is admirably placed as to climate, also in having quick rail and water transportation to all parts of the world.

3. Our annual catalog is prepared in the autumn and is ready for distribution in October or November; at this time it is sent to customers in the tropics, Florida, California and the lower South West. To more Northern customers it is sent in January. We are always willing to send extra copies when requested. If the recipient is not interested in our line we shall esteem it a favor if he will hand this catalog to an interested party.

4. Orders are promptly filled; we pack daily (except Sunday) all the year around and strive to keep orders cleared up closely. The majority are filled the day of their receipt.

5. Should there be any dissatisfaction over plants or any other matter, kindly write us fully, immediately on receipt of goods, that everything may be fully rectified.

6. Seeds, Dutch bulbs, Geraniums, and some soft wooded plants commonly grown as house plants in cold climates are not grown or sold by us. Do not order such stock, or in fact anything not listed herewith.

7. While we exercise the greatest care to have our plants true to label, and hold ourselves prepared, on proper proof, to replace any that may prove otherwise, we do not give a warranty, expressed or implied, and, in case of error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than was paid for them.

8. As to packing: We have perfected our system of packing so that we ship in safety to all parts of the world. Parcel Post and domestic mail packages being sent everywhere daily, and large shipments by express and freight likewise. We use specially thin material for shipment by express. We use our best judgment when forwarding stock, whether by express or freight, working for the best interest of each customer as to safety of delivery and least cost. We make no charge for proper packing, or pruning if desired.

9. After delivering goods to the carrier, we cannot hold ourselves responsible for any loss or injury to trees or plants which have been carefully packed and shipped; but we shall do everything in our power, if any loss should occur, for the protection and recovery of our customers' property. If any mistakes are made in filling orders, we shall carefully rectify the same, but must respectfully request a prompt notification on receipt of goods.

10. PLANTS BY PARCEL POST AND DOMESTIC MAIL: (a) We send small and medium-sized plants by this method to all parts of the United States, Cuba, Porto Rico, Hawaii, the Canal Zone and the Philippines, AT CATALOG PRICES POSTPAID.

(b) To Canada, Mexico, Central America, South America, West Indies, and other countries which have a standard parcel post service, at 10 per cent (one-tenth) in addition to catalog rates.

(c) We do not care to fill orders by mail under a total value of 50 cents. Please do not ask us to send one small plant alone, unless you add 10 cents extra.

11. Terms, cash with order. Remit in any safe way. Postoffice money order on Oneo, Bank draft, express order, or currency by registered letter. Foreigners may remit by International Post-office orders on Bradenton, Florida, or by Bank exchange.

12. Applying prices. Not less than six of a sort will be sold at the dozen rate, nor 40 at the 100, nor 400 at the one thousand.

13. In ordering, please state whether substitution will be permitted, as we feel at liberty, when no instructions accompany the order, to replace with other sorts as nearly similar as possible. Those not acquainted with the different varieties will do well to leave the selection to us, as we shall send them only such as we know to be adapted to their locality. A list of second choice, accompanying each order, would be appreciated by us.

14. SPECIAL DISCOUNTS ON STOCK BY EXPRESS OR FREIGHT. Orders amounting to $2.25 at list prices will be filled for $2.00; $3.00 for $2.60; $4.00 for $3.30; $5.00 for $4.00. And all above this in proportion of 20 per cent. discount (or one-fifth) off list prices. No discounts on goods by mail.

15. We always send receipt for money; so if one remits us and fails to get a receipt in a reasonable time, he should look up original order, ascertaining if it had been properly posted; if the letter had been sent us, then write stating necessary details. We get orders frequently with no name attached.

16. This present catalog abrogates all previous terms, conditions and prices. Dealers, or others desiring to buy in quantity, will be given special prices for large lots, on application.

17. TO THOSE GETTING UP CLUB ORDERS, we make special terms; after allowing such discounts to each party as our Rule 14 enumerates, the club raiser may select extra plants to the value of 10 per cent. of the gross total amount. For instance, if Mrs. A. send us net orders for Mrs. B.
of $2; for Mrs. C. of $3; for Mrs. D. of $1.; for Miss E. of $5; for Miss F. of $3—a total of $14—she is entitled to $1.40 worth of plants, and it is usual for the club raiser’s collection to be sent free, the other parties paying express pro rata. All orders packed separately and shipped in one case.

18. WHEN TO ORDER. Please read over our remarks on this subject under the heading of each department of this catalog. The directions are plain in each case.

**Collections of Plants**

See end of each department in this Catalog for bargain lists. We make up valuable collections of choice plants at a very low price, and have given satisfaction and pleasure to hundreds of customers. If you don’t know just what you want, let us select for you. We know what will thrive with you, and can choose from good-sized plants, which are bound to more than please you. Try them.

**Treatment of Plants on Arrival**

The plants should be removed from the package as soon as possible after they reach their destination. Should they be in the least wilted, they should be placed in lukewarm water, with the packing moss still about the roots, and in half an hour they will be ready to pot. This treatment will increase vitality and vigor, whether they be wilted or not. Large trees and shrubs from open ground may be simply “heeled-in” on the shady side of a building, the roots well watered, and if not set permanently for a week afterward, they will be all the better for it.

**Setting.** It is, of course, understood that the soil has been put in proper condition by digging, manuring, etc., and plants and trees can be set in their proper spaces at once. If plants are from pots, let them be set considerably deeper than before! If soil is still around the roots set without disturbing or removing it. Don’t try to straighten out the roots of pot-grown plants! Plants or trees from open ground should be pruned, if necessary, and roots looked over and broken ends trimmed smooth. After setting, draw soil around and firm down thoroughly by trampling with the feet. Then water well, after which rack fresh soil about, shade if necessary, and mulch with straw or like material. The plant may not be stocky, so if it needs a stake do not forget to tie it thoroughly to the support given. When it is necessary to water plants outdoors, give them enough to soak down to moist soil; every few days should be often enough.

**Potting.** At first, while plants are small, use pots one size larger than they were last removed from. As they increase in size, they should be repotted when it is found that the pots are full of roots. In using small pots, it is only necessary to use a small piece of broken pot over the hole in the bottom, but when the size runs up to 7 or 8 inches, several pieces of pots, some pebbles or pieces of charcoal should be put in, that it may have ample drainage. Fill the pots with earth and plant, leaving about half an inch space to hold the water; water thoroughly, and place the plants in a sheltered position, where they will not be exposed to wind or sun, until they show signs of recuperation.

**Watering.** This is one of the most important points in the successful cultivation of all plants. During the growing season they should have enough water to keep the soil moist to the bottom of the pot, but should not be kept in a soggy state; plenty may be applied to the foliage at all times. During the winter the soil should be kept drier, and in some cases nearly or quite dry. A plant will generally show when it needs water, and more are killed by overwatering than through lack of it.

**Express Rates to Leading Points**

In the State of Florida the Express rates have been generally reduced, and plants are sent at graduated package rates. For other States the following condensed table will give an idea of the cost of delivering plants. The rates are 20 per cent. less than usual merchandise rates, and are applicable to any number of pounds at the 100 lb. rate; hence where the given rate is $5.00 per 100 lbs. the expense for 20 lbs. would be $1.00. Remember we make a specialty of packing as light as possible with safety, so you need not fear any heavier material or weight than is needful.

**Shipments by freight** if of considerable weight are often advisable, especially in warm weather. We shall always look after our customers’ best interests in forwarding stock, and advise in this matter when necessary. Freight rates are much cheaper than express rates, when the weight is considerable.
In this department will be found only strictly tropical subjects, none of which can bear much frost, but many recuperate quickly from the roots should tops be frosted, throwing up strong shoots which bear again after a reasonable time. In this class, of special value to Florida, are guavas, Anacardium occidentale, Surinam Cherry, pineapple, bananas, avocados, sugar-apple, rose-apple, and others, all of which should be grown above the "frost line" even for occasional crops.

Explanation of starring.—** Suitable for conser vatories, or plant sheds. ** Suitable for warmest portions of Florida, tropical regions, or large conser vatories. *** Suitable for South Florida generally, with or without protection, according to locality.

All, except pineapples and bananas, are pot-grown, enabling one to transplant stock any time of year, and always in safety. All tropical stock does best when set in warm weather.

** ANACARDIUM occidentale. ** Cashew Apple, or Cashew Nut. Juicy, sub-acid fruits, red, white or yellow, bearing seeds on outside of the fruit. A well-known commercial nut so much liked. 3 yr., 25c., $5.00 per doz.; 2 yr., 25c., $3.50 per doz.

** ANANAS sativus. ** and ** The Pineapple. ** Those desiring large quantities of either slips or suckers should write us, stating number required, and get a net estimate. Rooted plants in stock as follows:

- ** Abacaxi. Very sweet fruit of medium size, and considered the finest flavored of all. 25c., $2.50 per doz.**
- ** A. reticulata. ** The Pineapple. The ordinary commercial sort so largely grown. 10c., 50c. per doz., $5.00 per 100.
- ** Smooth Cayenne. ** The only sort without spines on the leaves. A very valuable sort. Strong plants, 25c., $2.00 per doz., $15.00 per 100.
- ** ANONGA echinatum. ** The Cherimoya, or "Jamaica Apple." Small trees. 35c.
- ** A. muricata. ** Sour Sop. Large, prickly, juicy fruit, used in making sherbet. 2 yr., 25c., $5.50 per doz.
- ** A. reticulata. ** Custard Apple or Bullock's Heart. (In Calif. all, or nearly all, the so-called cherimoyas are in reality this species). Large, rough fruit, sub-acid; bears two crops yearly. 1 yr., 25c., $2.50 per doz.; 2 yr., 25c., $3.50 per doz., 3 yr., 50c.
- ** ANIDESMA Bunius. ** Quick-growing, small tree, bearing sub-acid fruit of small size, used chiefly for preserving. 1 yr., 25c., 2 yr., 50c.
- ** BERTHCLEATIA excelsa. ** The Brazil Nut Tree, bearing the well-known commercial nut so much liked. Small trees 50c., $5.00 per doz.
- ** CACLORPUM mammosum. ** (Lucuma mam- mos). Mammea Sapota. Very large fruits, rich and sweet. Tree tall and vigorous. 1 yr., 40c., $4.00 per doz.

- ** C. species from South Cuba. ** Undescribed. 3 yr., 50c., $5.00 per doz.
- ** CARICA Papaya ** and ** Papaw, or Melon Fruit. ** A fine decorative plant, with large, palmate leaves. Being dioecious, one should set several specimens to be sure of getting fruit. Seedlings of the finest fruit only are offered, and all pot-grown.

** Variety from Culebra. ** 20c., $2 per doz.

- ** Variety No. 1. ** "Finnest and best." 25c., $5.00 per doz.
- ** Variety No. 2. ** "Largest." 25c., $5.00 per doz.
- ** Variety No. 3. ** "Very prolific." 25c., $5.00 per doz.
- ** CARISSA Arduina. ** Amautungula, of Natal. Fruit is well liked, and handsome in appearance; about 1½ inches long, scarlet. 25c., $5.00 per doz.
- ** C Hình ROA calydis. ** White Sapota, of Mexico. A very promising new fruit tree which has borne well in South Florida and is harder than most tropical trees. Fruit is yellow, about the size of a small orange, round with smooth skin; seed three or four, embedded in a white pulp of pleasing taste, something like the peach in flavor. The fruit keeps well and should be grown for market. We have made especial efforts to obtain seed from the ** Verry. ** fruit produced in various parts of Mexico, and offer fine young stock, pot-grown, 1 yr., old, at 25c., $5.00 per doz., $15.00 per 100.

- ** CECRHOPIA palmata. ** Shakewood tree. Handsome palmate foliage, silvery on under side. Fruit curiously like fingers, soft, similar to a fig, minute seeds; sweet. 2 yr., 25c., $5.00 per doz.; 3 yr., large, 35c to 75c.
- ** CHRYSSOPHYLLUM Cañito. ** Star Apple. Good-sized tree; fruits 2½ to 3 inches in diameter. 3 yr., old 25c., $5.00 per doz.
- ** CUPANIA sapida. ** (Blighia). Akeke tree. Bears red fruits, used only when cooked. Small, 50c.
- ** DOYALIS cafra. ** ** (Aberia cafra). ** Kii-Apple. A large thorny shrub. The acid fruits are used for preserving and are very much liked, especially for making marmalade. This is
a heavy bearer; may be grown as a hedge; stands some frost. 2 yr. 25c, $2.50 per doz.; 3 yr. 35c, $3.50 per doz. Very large, $1.00.

D. Gardniri. * * * If frosted down, comes up and bears same year. Fruit tastes like the cranberry; very prolific. 1 yr. 25c, 2 yr. 50c.

ELAEODENDRON orientale. * * The Colpoon-tree, or Wild Olive of Madagascar. A tree of 20 to 30 feet in height with ornamental leaves, and fruit resembling large olives, about 2 inches long, which are edible. 50c, $5.00 per doz.

MACFARLANE, F. E. G. One year old stock, for pot-grown. A fine subject for growing in tubs at the North, as foliage and fruit are very attractive at all times. All pot-grown.

1 yr. 10c, $1.00 per doz., $7.00 per 100.
2 yr. 15c, 1.50 per doz., 10.00 per 100.
3 yr. 25c, 2.50 per doz., 18.00 per 100.
4 yr. 35c, 3.50 per doz., 25.00 per 100.

Select specimens, 50c, 5.00 per doz.

MAMMEA americana. * * Mammee Apple. Large tree, bearing very large fruits 2 to 6 inches in diameter. Does well in extreme South Florida. 1 yr. 40c, $4.00 per doz.; 2 yr. 50c, $5.00 per doz.

MANGIFERA indica. * * Mango. One of the most important tropical fruits for South Florida. We have been importing the delicious East Indian varieties for years and were the first to inarch these in Florida. Beginning in 1887. Our stock is probably the largest in Florida. All sorts named, except those of East Indian varieties of exceptional value, almost or entirely devoid of fiber. These should be planted everywhere in South Florida (and of course in the tropics generally); in Florida in protected spots, or else protected artificially with cloth or lumber, so that fruit may be grown for home use. Nothing compares with the improved mango for table use, and even one tree is worth a lot of trouble to grow as grafted stock bears early and abundantly.

Every lover of mangos who lives in a frosty location in Florida may enjoy home-grown fruit by making a simple framework (posts and light

Black Fruited Surinam Cherry. Similar to preceding except in color of the fruit. 2 yr. 50c, $3.50 per doz.

E. Jambos. * * Rose Apple. A good sized tree, with handsome appearance. Fruits medium-sized, rose-flavored, crisp and delicious when fresh. 1 yr. 15c, $1.50 per doz.; 2 yr. 25c, $2.50 per doz.; 3 yr. 35c, $3.50 per doz.

E. malaccensis. * * Malay Apple. Foliage broad: fruits white and pink, about 3 inches long, rose-scented. 2 yr. 50c, $5.00 per doz.

GENIPA americana. * * Marmalade Box. A recent introduction from Porto Rico, fruit of which is highly commended in cookery. Fine stock, 1 yr., $1.00 per doz.; 2 yr., $3.00 per doz.

HARPICRHYLUM castrum. * * Kidar Plum. New and well recommended. 3 yr. $1.00.

MAUGANIA uniflora. * * Queenland Nut Tree. Slightly resembling the chestnut, bearing deli-cious nuts twice the size of filberts, rich and highly valued. 1 yr. 50c, $5.00 per doz.

MALPISIA glabra. * and * * Parahados Cherry. Dwarf tree with delicious red fruits of sub-acid flavor. 35c, $3.50 per doz.

scantling) around one or more trees either in the open, or against a building, and covering with any cheap cloth during winter months.

Fire heat may be provided by oil stoves or small open fires, etc. It requires but a VERY small fire to keep out frost when the framework is covered with cloth snugly.

Our plants are all inarched (or grafted) on pot-grown 2-year-old seedlings, and may be set safely any time of the year, being strong and vig-orous trees, well rooted. Pot-grown stock is the only safe stock to handle, as the mango when transplanted from the open ground is very likely to die. In setting our pot-grown trees the planter is sure to get growth from every one.

Prices of all sorts, except where noted:

Don't overlook discounts on page 2, paragraph 14, of this catalog.
Amini. General form long, about 5½ inches; skin medium thick, yellow and red. Flesh meaty, tender and attractive. "Arbutanot." Imported by us direct from India. This fruited for us in 1910 for the first time. The fruits are medium-sized, weighing 8 to 14 ounces each, of excellent flavor and very little fibre.

Bennett (Bennett’s Alphonse). Considered one of the best yet fruiting in Florida. Medium sized; highly colored, delicious, and prolific.

Cambodian. A very rapid grower, bearing medium to large fruit; early ripening; color yellow, skin without fibre; larger than most fruits if gathered before coloring, but when ripened on the tree quite sweet. Very fine sort without any tartness or bitterness of the best.

Ennuria. Of our own importation. Medium-sized; oblong; highly colored; exquisitely flavored; mid-season ripening; has a little fibre.

Fernandez. Fruit small, covered with a glossy bloom; of superior flavor.

Gon Alphonse. Said to be one of the finest grown around Calcutta but not tested by us as yet. A fine grower. Strong stock $2.50, $5.00 per doz.

Gollan. Our importation from Saharanpur, India, named in honor of the late Superintendent of Government Gardens there. Fruit large, oblong, weighing from 1.5 to 24 ounces each; pale yellow in color. Small quantity of fibre; flavor excellent.

Gopal Bhog. Highly recommended by our Indian correspondent who furnished the original stock. Has not yet fruitied in America.

Gordon. This is probably the smallest fruit of our collection, averaging 6 ounces; short, kidney-shaped; flavor delicious; high color; quite prolific.

Gona Benarsi. One of our introductions from India, which bore in 1910 for the first time. Promises to be very prolific and is a strong grower. The fruit, which we have ever seen, weighing up to 3 lb. 1 oz. each! Very little fibre; flavor rich and spicy; color of yellow or greenish-yellow. $2.50, $5.00 per doz.

Mulan. One of our own importation. Fruit small to medium, yellow, highly flavored, usually late to ripen, contains but little fibre.

Mulgoba. This fruited for the first time in 1909. Fruit large. (12 to 16 oz.) almost round, fibreless, of good flavor. Differs entirely from Mulgoba.

Paheri. Imported by Dept. of Agriculture, and fruiting for the first time in Florida. One of the finest sorts grown in India. General form is roundish, about 3-5 by 3-8 inches. Skin thick, yellow and green when ripe, touched with garnet red on the sunny side—very attractive. Flesh yellow, tender and juicy; sweet and aromatic. Of very high quality. $2.50, $5.00 per doz.

Peters No. 1. Supposed to be one of the famous Bombay mangos. Rather late ripening; medium size; very rich red color; spicy; prolific.

Rajpur. Averages about 10 oz. in weight; a true evening fruit; first ripening in Florida. One of the finest fruits of our collection, weighing 8 to 12 ounces each, of excellent flavor and very little fibre.

Red Number Eleven. A West Indian descendant of a fine Indian sort, having high color, but is small in size and somewhat fibreless. Has a most delicious flavor. $1.50.

Singapur. Our own importation, which fruitied for the first time in 1911, and proved to be all that was claimed for it by our Indian correspondent. The skin is green and golden yellow, finely mottled, thick and strong, with a grayish-blue bloom, clean and free from spotting. The flavor is distinct, rich and sweet, with characteristic true mango flavor. The fruits are remarkably uniform in shape, meaty, thick and solid,—perfect, weighing from 14 to 20 ounces each, and we judge will be a remarkably good shipper. The seed is medium and flat. A specimen fruit was sent to each of a number of correspondents, and the following extract from a letter from the Pomologist of the Dept. of Agriculture voices the general sentiment:

"Washington, D. C., Aug. 2, 1911. * * * In regard to the Singapur specimen which you sent, we got an excellent painting and description of this variety. I think it is one of the best and is to be ranked with the Mulgoba in quality. * * * (Signed) G. B. BRACKETT, "Pomologist."
NEPHELIUM longanum. * * Longan. Fruit small, in large bunches, very sweet, not first-class. Tree handsome and may be used as a shade tree; also is used as a stock on which to bear cuttings. 25c, $2.50 per doz.

PASSIFLORA laurifolia. * and * Water-Lemon. A vine bearing a juicy sub-acid fruit. 25c, $2.50 per doz.

P. Quadrangularis. * and * The Granadilla vine of Central America. Fruit large and generally liked. The large flowers are beautiful. 25c, $2.50 per doz.

PekSEA americana. * * Avocado, or Avocado Pear. The most valuable fruit on the American market. Usually sold exclusively as a salad, with various dressings. We offer seedlings from the finest large green and purple sorts from Cuban origin mostly, strictly first-class. 1 yr. 35c, $3.50 per doz.

Pollock. Very early, large variety; budded or grafted, $2.00.

Trapp. Ripens November to March, the latest of all. Is a large green sort of high quality. $2.00.

PYLLANTHUS emblica. The Emblic Myrobolan, Emblica. Foliage is very beautiful, compound, fern-like; fruit acid, and used in cookery. Small only, 50c.

PSIDIUM. The Guava. A grand fruit in all its varying forms, especially valuable for Florida because of its surety to sprout up after being cut down by frost, and bearing after only one frostless winter. The fruit is always borne in enormous quantity, and varies in size, color, acidity, juiciness, and sweetness, our aim being to propagate from the very finest types we can secure, and to only offer the best. We grow many thousands of plants yearly from seed only, and offer the following kinds, all of which are valuable for cooking—canning, preserving, making jelly, etc., or may be used in the fresh state with sugar and cream, being only second to finest peaches. All stock is pot-grown, and may be transplanted any time.

P. Anaca. * From Brazil. Fruit extremely acid, of medium size, not very seedy, especially valuable in jelly making. A few fruits added to a lot of sweet guavas makes a fine jelly combination. 3 yr. 35c, $3.50 per doz.

P. Friedrichstalum. * * Costa Rican Guava. Extremely acid fruit, similar to the preceding. Of value in cookery. 2 yr. 25c, $2.50 per doz.

P. guava. and * * The Common Guava. Fruits are variable in size and shape, sweet, sub-acid and sour, and largely in demand for making jelly, marmalade, cheese, and all manner of preserves. We grow this largely, and all from seeds of the most distinct and valuable fruits. Select sorts follow, of which we consider a large majority of these lots will bear true to description, but this cannot be guaranteed in seedling stock.

Perico. A sub-acid sort of very large size. Flesh thick and meaty, containing rather under the usual quantity of seeds; color pink. Flavor and quality the very best. This is fine for dessert and for canning. 1 yr. 15c, $1.00 per doz.; $7.00 per 1,000; 2 yr. 15c, $1.50 per doz., $7.00 per 1,000; $10.00 per 10,000.

Sweet. Grown from mixed sweet guavas, both pink and white fleshed, etc. For dessert and preserving. 1 yr. 15c, $1.00 per doz., $7.00 per 1,000; 2 yr. 15c, $1.50 per doz., $10.00 per 1,000; $15.00 per 10,000.

P. guineense. * and * * The Guinea guava, in both white and pink varieties. Fruit very sweet; large size, thick meated; few seeds. Very fine for sweet pickle, dessert, or for canning. 1 yr. 10c, $1.00 per doz., $7.00 per 100; 2 yr. 15c, $1.50 per doz., $10.00 per 100; 3 yr. 25c, $2.50 per doz., $15.00 per 100.

P. Molle, * and * * The Sour Guava, of Central America. Fruit small, very acid, fine for jelly. 3 yr. 25c, $2.50 per doz.

For Hardy Guavas see page 11.

SORINDIA ma-a-gascariensis. * * The "Grape-Mango" from Mauritius—one of our new introductions of 1911. 50c, $5.00 per doz.

SPONDIAS dulcis. * Otaheite Apple. A large tree, very tender, producing plum-like fruits 3 inches long, of a peculiar flavor. 2 yr. 50c, $3.50 per doz.

STRECHNOS spinosa. A new fruit introduced by the Dept. of Agriculture from South Africa. Fruits large, dark purple, with hard shells; very aromatic; pulp with consistency of a ripe banana; clove-scented. 50c.

TAMARINDUS indica. * * Tamarind Tree. Large, very ornamental; fruit consists of fleshy pods, the acid pulp surrounding the seeds used in preserving and in making a delicious drink. 3 yr. 35c, $3.50 per doz.

TRIPHASIS trifoliata. * and * * Bergamot, or Limeberry. A bush, quite thorny, useful for hedging. Fruit small, used in making famous conserve in the Philippines. Small plants 35c, $3.50 per doz.

VANGUERIA edulis. * * The "Vavangue." A large leaved shrub from the Mascarene Islands, bearing edible fruit. The pulp is brown in color, when entirely ripe. New. $1.50.

V. infanta. * * The Wild Medlar of the Trans-Virgin Islands. The fruit of this has the flavor of loquats. $1.50.

COLLECTIONS OF TROPICAL FRUIT PLANTS

We make up collections of the foregoing plants to suit the location of our customers, sending the most suitable in every case. For the northern conservatory we, of course, send the finest in appearance, and species that can thrive under adverse conditions. We do not confine ourselves to a set list, but choose for every applicant. If the purchasers will kindly state what sorts they already have, we shall not try to duplicate them. This applies to all No. 1. Six distinct sorts, postpaid, $1.00. No. 2. Ten distinct sorts, very fine collection, $2.00.
Semi-Tropical and Temperate Fruit Trees and Plants

Explanation of symbols for this section. * Adapted throughout the South. ** Most tender semi-tropical sorts, not being able to withstand a lower temperature than 25 degrees Fahr. without injury. E Evergreen.

The majority of plants and trees named in this department should be set in winter, and not later than March 1st. Citrus trees, pot-grown guavas and other plants, however, may be set in Spring, Summer and Autumn, in fact at any time convenient. For discounts see paragraph 14, page 2.

CITRUS STOCK: one of our specialties. The orange tribe is largely grown by us on specially selected high sandy land, insuring good roots, and when transplanted goes ahead vigorously. We invite correspondence from those desiring large quantities of trees to whom it may be possible to quote special terms.

The varieties grown are of the very best, and buds are selected from the best bearing trees in every case.

Our budded trees are stake-trained, but are headed back to develop stockiness, and unless requested to the contrary are cut back properly ready to set out, before being packed for shipment.

The stock grown on our high land succeeds equally well on low or high lands when transplanted, but we suggest that when set on low lands the planter make large mounds so that in wet seasons the crown roots may be well out of standing water. On low lands if there is hardpan, the holes should be blasted out by dynamite, and a tree of lime or marl made; the tap-roots should be cut rather short also—say about 9 to 12 inches. The best time to set citrus trees is in late November or December.

Our citrus trees are budded on rough lemon, sour orange and pomelo stock mostly, and we ship to all parts of the world in safety. Prices of Sweet Orange, Mandarin, Lemon, and Lime trees are as follows:

CITRUS aurantium. * * E. The SWEET ORANGE. Our list of varieties is reduced to only the very best, and no one will make a mistake in planting these sorts.

Centifolia. One of the best native varieties, ripening early, but holding juice well. Grown on sour orange, and rough lemon.

Gold N'gget Naval. A California variety of navel said to be superior in quality and market value. Fruiting early and ripens early. On rough lemon and pomelo.

Joppa Late. A very late orange from California, very thornless; fruit seedless, of high quality and flavor; large size, inclined to be oblong. On sour orange.

Majorca. One of the finest Mediterranean sorts, seedless, and a good bearer. Tree thornless. Mid-season to late. On sour orange and rough lemon.

Pineapple. A distinctively flavored fruit of great merit. Mid-season to fairly late. On sour orange and rough lemon.

Ruby. A very early orange, showing coloring markings when entirely ripe, about Jan. 10th to Feb. 15th. This variety colors up very early and should be mostly shipped before Christmas. An annual, very heavy bearer; the flavor is most delicious. Probably the best blood orange for Florida. On rough lemon and sour orange.

Star-Calyx. The adherent, enlarged calyx around the stem makes it distinctly marked. A heavy annual bearer. Mid-season. On sour orange.

Surprise Naval. Of Florida origin. An early ripening fruit of splendid quality and flavor; size medium. Skin orange highly colored. On rough lemon only.

Tangerina. Very early, but small fruit; skin deep orange, highly colored. On rough lemon only.

Tartiff (Ha'ts Late). Very late keeper, season being from March to July, or even later. A fine, heavy orange of exceptional value. On pomelo only.

Valencia Late. Confused and mixed so with Tartiff that few can see any difference, though we consider they are distinct. The fruit of Valencia is probably of a deeper color, ripening at the same time and for the same length of time as the usual variety, called 'Shy Bearer.' On rough lemon.

Washington Naval. Fruit large, early and with the characteristic navel mark on lower end. Quality the best. On rough lemon, sour orange and pomelo.

CITRUS nobilis. * * E. The MANDARIN or MANDARIN ORANGE. All in this group have usually flattened fruit, with fruit segments and skin loosely adherent; sometimes called "Kid Green" or "Kid Orange.

Dancy (Tangerine.) Fruit of delicious, sparkling quality, mid-season in ripening; skin orange-red, very highly colored. Grown on rough lemon and pomelo.

Cienco. A good fruit of our introduction. Growth and general appearance of tree resembles Dancy, but the fruit is rounder, and later ripening; of the most exquisite flavor. More hardy than Dancy. On rough lemon and sour orange.

Satsuma. A very early fruit, entirely seedless; tree thornless. Quality poor, but the fruit ripens early can be sold before good fruit is available. Tree very hardy. On citrus trifoliate only.

CITRUS hybrida. * * E. The Sampson Tangelo. A hybrid of the Tangerine and pomelo of splendid value. Skin smooth; pulp of delicious flavor, especially fine for a breakfast fruit. Sizes average smaller than ordinary pomeles. Price of trees on sour orange stock: 1-2 ft. high 40c, $1.00 per doz.

CITRUS japonica. * * E. The KIIMOUAT. A small fruit and dwarf tree; admirable for small place of ground or conservatories. Fruit edible either raw or cooked. Very ornamental. There are two forms, the O'Lone and Round: the O'Lone being preferred. Price of either sort, on rough lemon, 25c and 50c. On trifoliate roots, 25c, 35c and 50c.
**CITRUS limonum. ** **THE LEMON.** Of the many excellent commercial lemons we have the following two sorts in stock, at same prices as the orange.

**Genoa.** This is perhaps the best known variety, largely grown in California, where it is frequently called Eureka. A very fine sort here in Florida, that should be nearly ripe, or fully ripe, before being used, thereby developing its juice to the full. Grown on **rough lemon** roots.

**Lamb.** Fruit is very similar to the preceding, of better quality, and we find the tree stands more cold than any sort we ever raised. Grown on **sour orange** roots.

**CITRUS limetta. ** **E. THE LIME.** The lime are generally more tender than other citrus trees, and should have protection from cold in frosty locations. The Sour Rangpur is more hardy than the others, being fully as hardy as the lemon tree. Limes have a very agreeable acid, and as the fruit of several sorts ripens at intervals throughout the year they are especially valuable for South Florida, both for home use and market. Prices (except where noted) are the same as for the orange.

**Mexican or Common.** A small fruit produced very abundantly, and in from two to four crops per year. This is a very valuable crop for South Florida, especially for the Keys. Seedlings, 2 yrs., 25c, $2.50 per doz.

**Persian.** This is very prolific. The fruit is medium round than a lemon, and somewhat smaller usually; smooth skin, juicy and abundant and very acid. Grown on **rough lemon** roots.

**Sour Rang- pur.** Resembles a mandarin in shape and high coloring, with segments rather easily parted. Pulp red, dish juice very acid and finely flavored. A heavy bearer. Tree almost as hardy as the Sweet Orange. Grown on **rough lemon** roots.

**Tahiti.** A very strong grower. The fruits are as large as ordinary lemons, very smooth, and almost seedless. A fine thing. On **rough lemon** roots.

**Thornless.** A great advance over the spiny Mexican lime, from Trinidad. Fruit is the same as the Mexican, of small size, and best quality. On **rough lemon** roots.

**CITRUS medica cedra. ** **E.** The commercial Citron. The thick rind of the fruit when preserved constitutes its value. This is a large, heavy bearing, with fruit from two to five lbs. in weight. Grown from cuttings, 2 yr. 25c, $2.50 per doz.

**Common cihron.** **E.** A very superior variety from the Mediterranean region. Grown on **rough lemon** roots. Prices same as the orange.

**CITRUS punica. E.** THE POMELO, or GRAPE FRUIT. The culture of this valuable fruit is fully as important in Florida as that of the oranges, due to its delicious and produces such a delicious product in our climate. We offer four of the finest and most distinct sorts, at following prices:

**Pernambuco** grapefruit.

Elen. A splendid new sort originating on our own place. Size large; skin thin and shape slightly flattened; very juicy, with average number of seeds; not excessively bitter. On **rough lemon**, pomelo and sour orange.

**Marsh Seedless.** Medium to large size; almost or quite seedless; juice somewhat bitter. The fruit is late in ripening and holds exceptionally well without waste. Grown on **rough lemon** and pomelo.

**Pernambuco.** Has been the leading sort in demand in this section for some years. Large size, late in ripening; bitter but fine. On **rough lemon**, pomelo and sour orange.

**Royal.** One of our early introductions. Early ripening, sweet, not quite large enough for the general market. The best of the sweet varieties. Grown on **rough lemon** and pomelo.

**CITRUS trifoliata.** Used very extensively along the Gulf coast, (north Florida to Texas) as a stock for the Sittsum mandarin and other forms of citrus fruits, rendering them very hardy. This is also largely used as a defensive hedge, being hardy over most of the country, at least as far north as New York, etc. It makes a very dense hedge, impenetrable to man or beast. The common splendid, clean, well-grown varieties are as follows: 8 to 12 inches high, 5c, 50c per doz., $1.00 per 100, $10.00 per 1000; 1 to 2 feet 10c, 75c per doz., $6.00 per 100, $55.00 per 1000. Extra 2 yr., stocky, 2 to 3 ft., 20c, $2.50 per doz.; $10.00 per 100.

**DIOSPYROS.**

**Kaki D.** The **KAKI**, or JAPANESE PERSIMMON. A hardy, deciduous tree of small size, bearing large fruits which ripen in Autumn and Winter. Should be grown by every householder in the South for home use at least. The market is taking this fruit in ever increasing amounts. The following sorts are of the very best, for using as fruit trees:

<table>
<thead>
<tr>
<th></th>
<th>Prices: 2-3 ft. (mailable) 30c, $3.00 per doz.; 4-6 ft. 10c, $4.00 per doz., $30.00 per 100.</th>

<tr>
<td><strong>Hvakume.</strong> Very large-sized fruit; flesh dark and mealy. <strong>E.</strong></td>
<td>---------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Tane-Nashi.</strong> A very large fruit, roundish, pointed; seedless. One of the best, and is vigorous and prolific. Fine market variety. <strong>E.</strong></td>
<td>---------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Triumph.</strong> Tomato-shaped, rather small; skin deep yellow to red. The tree is a splendid grower, and immensely productive. Season lasts from September till December. Best sort for South Florida grounds. <strong>E.</strong></td>
<td>---------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Zengi.</strong> Small fruit, with dark flesh. Very early to ripen, and not astrigent. All other sorts must be <strong>dead ripe</strong> before being eaten. <strong>E.</strong></td>
<td>---------------------------------------------------------------------------------------------------</td>
</tr>
</tbody>
</table>

**ELAGNUS simoni. ** **E.** A very promising new variety. A most valuable winter and spring ripening fruit, yellow, size of plums, deliciously flavored, and fine for preserving. Pot-grown, 1 yr. 10c, $1.00 per doz., 2 yr. 20c, $2.00 per doz.; 3 yr. 35c, $3.50 per doz. Largesize, 1 to 2 ft. 30c, $3.00 per doz.; 2 to 3 ft. 40c, $4.00 per doz.; 3 to 4 ft. 50c.

**ERIOBOTRYA japonica. ** **E.** LOQUAT. (Medlar, or "Japan Plum.") A most valuable winter and spring ripening fruit, yellow, size of plums, deliciously flavored, and fine for preserving. Pot-grown, 1 yr. 10c, $1.00 per doz., 2 yr. 20c, $2.00 per doz.; 3 yr. 35c, $3.50 per doz. Large size, 1 to 2 ft. 30c, $3.00 per doz.; 2 to 3 ft. 40c, $4.00 per doz.; 3 to 4 ft. 50c.

**FELIOA Sellowiana. ** **E.** A valuable new fruit shrub from South America, related to the guava,
but much harder. The fruit is rough in appearance, of a greenish color, keeping for weeks after being gathered in the autumn, and is sub-acid, liked by all. Seeds so small as to be unnoticed. Size of fruit 1 to 1½ inches in diameter. 50c, $5.00 per doz.

**Ficus carica.** *D.* The FIG. One of the most delicious of all fruits, which does well along the Gulf Coast. In Florida, owing to prevalence of nematodes, care must be taken in heavy mulching (preferably of stones or brickbats) as a preventive, or planting close up to buildings under which the roots will be shaded. We can only offer one variety this season.

**Celestial.** Often called "Sugar Fig," as its fruit is so very rich and sweet. A small fruit, brownish yellow, borne in profusion. Very hardy. 1 to 2 ft. 20c, $2.00 per doz.; 2 to 3 ft. 30c, $3.00 per doz.

**Ricoria pecan.** *D.* The PECAN. Pecan nuts form a staple crop in the South and fine, large nuts bring high prices. The industry is a safe one in the proper latitude. The lower South has an immense area of excellent soil, suitable for these trees. The sorts we offer are the cream of the best named varieties, and priced as follows: 2 to 3 ft. (unmailable) 30c, $8.00 per doz., $73.00 per 100; 4 to 5 ft. 50c, $7.50 per doz.; $14.00 per 100.

**Columbian,** (or **Pride of the Coast.**) Perhaps the largest of all sorts, 35 to 40 nuts to the pound. A strong grower.

**Stuart.** One of the oldest named sorts. Nuts of large size and of splendid flavor. A heavy bearer.

**Van Deman.** A large nut, 45 to 50 per lb., oblong in form. Quality good, and tree a prolific bearer.

**President.** The finest of all Pecans, embracing all the qualities of a perfect nut, in shape, size, color, and keeping quality. The meat is of delicious flavor, very solid. Has proved very productive. Size 45 to 50 per pound. Special prices of President pecan: 2 to 3 ft. $1.25, $14.00 per doz.; 4 to 5 ft. $1.75, $20.00 per doz.

**Hovenia dulcis.** *D.* The Honey Tree. A good-sized, round-headed tree, which bears small globular fruits of reddish flesh, with edible peduncles. Makes a good shade tree. 2 to 4 ft. 35c, $3.50 doz.

**Juglans cordiformis.** *D.* The Japanese Walnut. Tree forms large spreading head, with enormous leaves, growing very rapidly in the South. Nuts large and sweet, abundantly produced, 1 to 2 ft. 30c, $5.00 per doz.; 3 to 4 ft. 50c, $5.00 per doz.

**Morus alba.** *D.* The Mulberry. Very useful trees for shade, and bearing enormous quantities of fruit, especially useful for feeding poultry and swine. Prices: 2 to 4 ft. 20c, $2.00 per doz.; 4 to 6 ft. 30c, $3.50 per doz.

**Chinese.** Fruit medium sized, borne in enormous quantity, ripening very early.

**English.** Fruit medium sized, black, borne for a long season; does not begin ripening until all others are gone.

**Hicks.** A very productive sort lasting through a season of about four months. Especially valuable for poultry and swine.

**Stubs.** Decidedly the best we have seen. Tree large; fruit extra large and fine, borne very plentifully. The fruit of this is best for culinary use, or eating out of hand.

**Opuntia ficus-indica.** *E.* Indian Fig Cactus. This grows sturdily upright with very large, heavy sections, and bears fruits about 3 inches long; pale-yellow in color. This has no large thorns and is practically spineless. It is liked by many. Large cuttings 30c, $3.00 per doz.

**O. Tuna.** *E.* Tuna Cactus. This is a giant prickly pear, growing up to five feet, and bearing quantities of purple fruits 2½ inches long; used in preserving and for furnishing a fine coloring for cakes and ices. Large cuttings, spines sheared off, 15c, $1.50 per doz.

**Prunus.** *D.* The Plum. Plums seldom, if ever, bear well when isolated; the fact is the flowers need cross-pollination from vigorous sorts and hence to grow plums successfully one must set a number of kinds in close proximity to insure regular crops. Procure one each of all the native, or common wild plums available and grow closely with any of the choice varieties. The following three sorts are best adapted to South Florida, and are grown on plum stock at these prices: 2 to 3 ft. 25c, $2.50 per doz.; 4 to 6 ft. 35c, $3.50 per doz., $2.00 per 100.

**Excelsior.** Fruit of fair size, about 1½ inches long; very good color; see form. Makes a splendid fruit tree. The way we grow Citrus trees.

10
in diam.; color reddish purple. Quality first-class. All sorts ripen in June here.

Howe. Fruit medium to large, rich reddish-purple in color, with heavy bloom. Highly recommended.

Terrell. Fruit large, up to 2 ft. in diam.; sweet and juicy. Color reddish-yellow, somewhat mottled. We recommend this variety in place of the preceding sorts we recommend for July and August. We recommend the following (at same rates) for colder parts of the South, down to middle of peninsular Florida.

Abundance. Medium to large size; greenish yellow and carmine skin; fine sub-acid flavor. Early ripening.

Burbank. Fruit of good size, clear red in color, with firm meaty flesh, rich and fine; cling.

Kelsey. Fruit of very large size, greenish in color; flesh meaty, rather sweet. Ripens here in July.

Wickson. Large dark red fruit, of the Kelsey type, oblong shape. Flesh firm, clinging to the small pit. Very fine quality, and a splendid keeper.

Seedling Plums of common sorts, 10c to 25c each.

PRUNUS Persica. * D. The PEACH. The only choice hybrid peaches now grown in Florida, making through Chinese parentage. They are the best grown, and when propagated on our native plum by root-grafting are absolutely free from root-knot, thus bringing out their natural life, of 15 to 25 years. The fruit on such trees is larger, finer, and free from bitterness. We have sold our peaches thoroughly on the above points the past summer and recommend for Florida generally, trees so grown. One can safely plant them on any well-drained soil, no matter if infested with root-knot nematodes or not. Our stock and variety is limited this season to the following three sorts, which cover the season in ripening. Prices of root-grafted peach on native plum stock: 2-4 ft. 25c, $0.50 per doz.; 15.00 per 100; 4-6 ft. 35c, $0.50 per doz.; $0.25 per 100.

Write for rates on trees for December delivery, 1912.

Jewell. The earliest and best market peach for South Florida planters. It is of medium size, high color, fine quality and free-stone. Ripens in May.

Millen's Favorite. A fine late peach of good color and splendid quality, resembling Elberta in size and appearance. Does well in Florida. In addition to above, we can supply Angel, Bidwell's Early, Jewell, Peento, and Waldo, on peach roots, at following rates: 2 to 3 ft. 25c, $1.00 per doz.; 4 to 6 ft. 30c, $1.00 per doz.; $2.00 per 100.

PEARS COMMUNITIES. * The PEars. The only pears of value to Florida are those of Chinese origin, as named below. Prices, except on Suwanee, as follows: 2 to 3 ft. 25c, $2.50 per doz.; 4 to 6 ft. 40c, $4.00 per doz.

Cincins. Large pear which bears bountifully in Florida. Quality rather coarse, but excellent for cooking. Bears when other kinds are barren.

Keiffer. Large hard fruits, ripening late and slowly. Of value for cooking.

LeConte. Ripening here in July and August. Fruit small to medium, pale-yellow, juicy and good. Must be ripened off the tree.

Suwanee. A supreme valuable new pear, originating in South Georgia and becoming well for this variety. Seems to be very resistant to blight and a heavy and regular producer. Size large, with fine color; quality the best yet grown of this type. 2 to 3 ft. 50c, $5.00 per doz.; 4 to 6 ft. 85c, $8.50 per doz.

EASTONIUM CATTLEYANUM. * E. The CATTLEY GUAVA. A vigorous evergreen shrub standing sharp frosts, having handsome broad leaves. Ripens May. A highly valuable new fruit, averaging about an inch in diameter, borne in enormous masses, ripening in August. Color a pretty red. Fruit is juicy and sub-acid, good in many ways. A fine plant, also of especial value for making hedges in South Florida, as it is unusually free from insect pests, such as white flies and scale. Mog-grown, 1 yr., 10c, $1.00 per doz. $7.00 per 100; 2 yr. 15c, $1.50 per doz., $10.00 per 100; 3 yr. 25c, $2.50 per doz. A few extra large at 50c.

F. incidum. * E. The YELLOW or CHINESE GUAVA. Resembles the preceding rather closely in growth, bearing an abundance of yellow fruit somewhat larger than Cattley and sweet. Same prices as for Cattley, in fine pot plants.

PUNICA granatum. * E. The famous POMEGRANATE. A choice shrub bearing seedy fruits of large size eaten out of hand, or used in making sherbet. Good bushy stock. 2 to 3 ft. 25c, $2.00 per doz.

Common Sweet, and Spanish Ruby.

RUBUS cuneifolius. * E. Our native BLACKBERRY. A good strain of fine sized fruit. 10c, $2.00 per doz.; 20c, $3.50 per doz.

E. hybrida. * The NORTHERN BERRY. Resembles the Dewberry in growth, fruit, and uses, but is very vigorous and difficult to propagate. Fruit purplish in color, good-sized, and of exquisite flavor. 20c, $2.00 per doz.

E. trivalis. * E. The MANATEE DEWBERRY. A delicious black fruit of great value. 10c, 50c per doz., $5.00 per 100.

VITIS rotundifolia. * D. The MUSCADINE GRAPE. A very vigorous type of grape, needing large arbors, well built, for its loads of fruit. The varieties we offer are the best of the type and the most delicious of all grapes. Price, all sorts, strong vines, 15c, $1.50 per doz.

Flowers. Of medium size, black, ripens very late, after all others are gone. Sweet, tough-skinned.

James. Berry very large, black, or purplish-black, very sweet. Ripens here in August and frequently has a second crop in October or November.

Meisch. A new sort of medium size, in color purple. The earliest to ripen here. Has a delicate but rich flavor of the very highest quality.

Scuppernong. Greenish-amber in color, of a delicious and distinct flavor, this famous grape is high in the esteem of all connoisseurs, both as a fruit and wine-maker. The berry is very large, ripening in August and early September.

SPECIAL COLLECTION

A special collection of five (5) Semi-Tropical fruit trees, our selection only, eminently suitable for growing in pots or tubs in the home, or conservatory, will be sent for $2.00 postpaid.
Explanation of symbols and letters.—* Hardy throughout Lower South.  ** Semi-tropical, not being able to withstand a lower temperature than 16 degrees Fahr. without injury.  *** Tropical, adapted only to extreme South Florida and California, or for greenhouse culture.  E Evergreen.  D Deciduous.  S Shrub, or small plant.  T Tree.  V Vine.

Nearly the entire list of plants in this department may be planted at any convenient time of the year. Most of them are pot-grown. We take pains to avoid sending plants of any sort at unsuitable times of the year.

**ADENANTHERA pavonina.  ** E T. The Circassian Bean. A beautiful tree with pinnate leaves.  25c and 50c.

**AGAVE rigida, var. elongata.  ** E S. Small plants 15c.  $1.50 per doz.

A. rigida, var. Sisalana.  ** E S. The Sisal Hemp. A very valuable fibre plant from Yucatan. Should be grown on large scale for fibre on cheap frostless lands. Large quantities priced on application. As a decorative plant we offer strong stock 12 to 18 inches high at 25c, $2.50 per doz. Stronger at 10c, $1.00 per doz., $4.00 per 100.

**ALEURITES moluccana. (A. triloba.)  ** E T. The tropical Candle Nut. A vigorous tree of rapid growth, making a dense shade.  50c.  $5.00 per doz.

**AMOMUM cardamomum.  ** E S. The Cardamon Plant, which produces the Cardamon seeds. Thick, leathery leaves, scented, useful as a decorative plant. 10c.  $1.00 per doz.; large 20c, $2.00 per doz.

**ANDROPOGON citratus.  ** E S. The Lem-on Grass of India, which furnishes oil of citronella. Makes clumps five feet high, and is a money-maker on South Florida lands. Write for price on large quantity. 10c.  $1.00 per doz.

**BIXA orellana.  ** E S. The Annatto plant, famous for its orange-red dye. It makes an ornamental shrub 1 yr. 16c, $1.00 per doz. 3 to 5 ft. 50c.

**CAESALPINIA sappan.  ** E T. An East Indian tree; pinnate leaves; flowers yellow; furnishes Sappan wood and dye. 50c.

**CALOPHYLLUM calaba.  ** E T. The Calaba Tree of the West Indies. This grows to 30 ft. high, bearing white blooms. 75c.

**C. inophyllum.  ** E T. A large tree from the East Indies, with broad, glossy leaves and snow-white flowers. Bark, gum and fruit of economic and medicinal value. Fine large plants 75c and $1.00.

**CASSIA fistula.  ** E T. Pudding Pipe

Gathering Leaves from the Sisal Hemp.

**CASSIA fistula.  ** E T. Pudding Pipe

Tree, from India, which produces the Cassia pods. Flowers in graceful racemes; yellow. 25c.

**CASTILLA elastica.  ** E T. The famed Rubber Tree of Mexico. Perhaps the best rubber-producer for large plantations. We have a nice stock of pot-grown trees. 25c, $2.50 per doz.

**CEDRELÀ odorata.  ** E T. Cedar of Jamaica and South America, where it furnishes most valuable lumber. Makes a fine shade tree of quick growth. Large, from 4 to 7 ft., 35c and 50c.

**CINNAMOMUM camphora.  ** E T. The Camphor Tree. Exceedingly valuable for Florida and the Gulf Coast for gum production and shade. Grows well on light sandy soil. Fine pot-grown plants; 1 yr. 10c, $1.00 per doz., $7.00 per 100; 2 yr. 20c, $2.00 per doz., $15.00 per 100; 3 yr. 30c, $3.00 per doz., $20.00 per 100.

**C. cassia.  ** E T. Chinese Cinnamon, or Cassia lignea. Much like camphor, but has narrower leaves; is a magnificent shelter tree, very dense and of quick growth. Furnishes a cheap Cinnamon bark (not the true article), cassia buds, cassia oil, etc. Very valuable for Florida. Fine pot-grown stock. 10c, $1.50 per doz.; 4 to 5 ft. 50c, $5.00 per doz.

**COFFEA arabica.  ** E T. Arabian, or Commercial Coffee. Our stock is grown from the Blue Mountain strain of Jamaica. A fine decorative plant; handsome foliage, resembling the chestnut; flowers white like Jasmine. 1 yr. 15c, $1.50 per doz., $10.00 per 100; 2 yr. 25c, 3 yr. 35c; 4 to 5 ft. 75c.

**C. liberica.  ** E T. Liberian Coffee. This has large, glossy leaves; very handsome. Coffee strong and rich. Pot-grown. 1 yr. 15c, $1.50 per doz., $10.00 per 100; 2 yr. 35c, $7.50 per doz., 3 yr. 50c, $1.00, $10.00 per doz.

**C. zanziharensis.  ** E S. A new and rare species. Leaves very small. 2 yr. 25c, $3.50 per doz.; 3 yr. 50c, $5.00 per doz.

**COLOCASIA sp. Trinidad. The “Dasheen,”
Oneo, Florida

A pot-grown Camphor tree.

Beautiful plants, pot-grown, 1 ft., 40c, 18 inches 1 yr., 75c.

GELSEMIUM sempervirens. * E V. The Carolina Yellow Jessamine. A valuable medicinal plant, and splendid winter-flowering vine. Beauti-

f ul yellow, bell-shaped flowers, exquisitely per-

fumed. 1 yr. 15c, $1.50 per doz.

HYMENAEA courbaril. * B T West Indian Raintree, or Agarva. Of Panamian growth. A large tree, exuding valuable resin. The pulp around the seeds is edible. Fine plants 50c and 75c.

KALO. The Kola Nut Tree, furnishing the Kola of commerce. Strong plants, 2 yrs., 50c, $0.50 per doz.

MELISSA officinalis. * S S. The famous Henna Bush of the Orient. Also known as the Camphorine of Solomon. Aside from its use as a cosmetic, the flowers are grown for sale in Cairo and other places. Small, white flowers in spikes, scented somewhat like the Rose. Small 15c, $1.50 per doz; 2 yr. 25c, $2.50 per doz.

PARIETALUM elastica. * * E T Cuban Basswood.

This quick-growing tree with large, simple leaves and showy yellow-brown blooms. Fine for shade. 4 to 8 ft., 50c to 75c.

Pithecolobium dulce. (Inga.) * * E T A handsome small tree. The sweet pulp of the seed pods is a bitingly sour, but healthy and wholesome. Very fine for shade and stands considerable cold, but not much hard freezing. 2 yr. pot-grown stock 25c, $2.50 per doz.; $1.00 per doz.; 40c, 2 doz.

SANGEVIERA guineensis. * * E S. A South African Bow-String Hemp. A quick growing and valuable fiber plant. Leaves are long and sword-shaped, nolled a greenish white. This and following species are undoubtedly the toughest plants known that may be used as decorative subjects. They live in water, or dry soil, for weeks, and in dark rooms for months without attention! Fine plants 15c, $1.50 per doz. Large and fine, 25c, $2.50 per doz.

Ask for price on large quantities of both species.

Ceylanica. * * * E S. Jelson Bow-String Hemp. As a fiber plant this has been prized from remote antiquity. A finer decorative plant even than the preceding at same prices.

THEOBROMA cacao. * * E T Chocolate tree.

This furnishes cacao (or cocoa) as well as chocolate. Strong plants of the fine sorts. Orb.

等着!计算机计算结果已准备好。
The liberal planting of this class of plants creates a luxuriant semi-tropical effect. The more hardy sorts are very effective in masses even as far north as Ohio and Pennsylvania, where they stand the winters safely. In the South they may be planted freely with perfect success. The foliage, besides being of an ornamental character, is relished by stock, and may be used as pasturage. The bamboos proper are very useful for the florist in very many ways—decoration, design work, etc.

**Explanation of symbols.**—Those most hardy, standing the climate as far north as Ohio, or farther. * * * Hardy all along the Gulf coast, standing a temperature as low as 12 or 15 degrees without serious if any injury. * * * Tropical species, withstanding even light frosts unharmed. Roots will throw up growth, however, if tops are frozen.

Grasses and Bamboos may be set out any time of the year. On a large scale of planting, summer is to be preferred, or late spring in this climate. For northern and western locations, we should recommend the spring.

**ANDROPOGON citratus.** See Department III.

**ARUNDO donax variegata.** * Gardener's Garter. A beautiful bamboo reed attaining a height of 12 feet, beautifully variegated with white, especially during its early growth. Makes large clumps and is useful for bedding. Has immense flower plumes. Especially hardy, and may be planted all over the Middle States as well as the South. Heavy roots. 25c. $2.00 per doz. $12.00 per 100.

**ARUNDINARIA metasea.** * (Bambusa Metasea.) A very broad-leaved, hardy species, rarely exceeding 10 feet in height, very suitable for tubs as a house plant. It forms naturally large masses but may be confined to clumps effectively. Single canes, rooted, 10c, 85c per doz., $6.00 per 100. Clumps 25c; larger 50c.

**BAMBUS A argentea.** * * * A fine Japanese species reaching a possible height of 35 or 40 feet. It makes great thick clumps and the shoots bend outward very gracefully. Foliage small. Needs a large space to show off its beauty, like all large bamboos. Single canes, rooted. 15c, $1.25 per doz., $8.00 per 100. Clumps 25c to $2.00.

**B. argentea striata.** * * * Like the preceding but has foliage striped with white, especially noticeable during rapid growth. Grows even larger and more vigorously than the type. Single canes, rooted, 15c. $1.50 per doz., $10.00 per 100. Clumps 25c to $2.00.

**B. disticha.** (Formerly listed as Arundinaria fal cata.) * * * A rather dwarf bamboo reaching a height of 10 feet, and forming dense clumps. Foliage extremely small and narrow. Individual canes with their foliage are effective in decorations, and may be used by the florist. Single canes, rooted, 10c, 85c per doz., $6.00 per 100. Clumps, 25c to $2.00.

**B. spinosa.** * * * This is an East Indian sort with notice growth along the stems and branches. It makes very graceful, gigantic clumps, 50 feet high, with canes 3 inches thick. Can only stand light frosts. 25c, $2.50 per doz. Larger 20c and $1.00.

**B. vulgaris.** * * * The common giant bamboo, grows now all through South Florida. 50c.

**C A P R I O L A**

**Dactylon vari ety.** (Cynodon.) * * * **St. Lucie Grass.** A fine leaved lawn grass, the favorite generally in South Florida. It grows very quickly from surface roots, as it seldom perfects seed, must

Bambusa spinosa, with B. disticha in foreground.
be grown from bits of sod. Clean sod, soil removed, 65c per bushel, by express only. Small lots by mail 25c and upward.

**Cortaderia Selloana.** (Gynereium.) Silver Pampas Grass. An immense grass growing in great clumps, with feathery plumes often two feet long or more.

**Pink-tinted Pampas Grass.** Plumes of a pale pink color. 35c.

**Cyperus alternifolius.** *T.* Umbrella Grass. Long known as a graceful house plant. Certainly a beautiful subject when well grown. 15c, $1.50 per doz.

**Dendrocalamus strictus.** *T.* A wonderful giant bamboo of great beauty, having solid canes until very large, and reaching a height of 80 feet; will stand more frost than most tropical plants and recommended for South Florida generally. A rare plant. 25c, $2.50 per doz. Larger 50c, $5.00 per doz. Extra heavy $1.00.

**Euclalia japonica zebrina.** Zebra Grass. Forms small clumps of a total height of about 6 feet; leaves striped crosswise with white. 15c, $1.50 per doz.

**Elephantus Ravnnae.** A large plume grass, something like the Pampas grass. Clumps. 25c.

**Panicum molle.** *T.* Para Grass. One of the greatest forage grasses for Florida and the Gulf Coast. Will grow on very indifferent soil, wet or dry, and produce wonderfully. Seldom perfects seed and is grown by plowing under the growing tops, preferably in the rainy season. Cut tops, by express, 25 lbs. for 50c, 100 lbs. for $1.50. By mail, roots, at 25c per doz.

**P. palmifolium.** (P. excurrens.) *T.* A grand, broad-leaved grass, resembling a palm in the young state. In fact, commonly called Palm Grass. The leaves are 4 to 6 inches wide, gracefully recurved. Clumps grow to a height of 6 feet in a summer season. A magnificent grass for the lawn or border. A fine conservatory plant, 15c and 25c.

**Phyllostachys aurea.** (Bambusa aurea.) Very hardy species with underground running stems which throw up canes irregularly. Unless confined, it makes a straggling appearance. Fine for tubs, or for odd places; prefers a good, moist soil. Hardy to the Ohio river at least. Attains a height of 8 to 12 feet. Single canes, rooted. 15c, $1.50 per doz. Heavy plants, 1 to 4 stalks, 25c, $2.50 per doz.

**Stenotaphrum glabrum.** *T.* St. Augustine Grass. A good lawn grass. Thrives even under shade, and will grow on almost any soil. Does not need so much water as Bermuda or St. Lucie Grass. 40c per 100 cuttings; by express $1.00 per bushel.

A collection of 6 choice Bamboos and Grasses sent to any address for $1.00.

---

### Aquatics

- Specially adapted for aquariums, or for growth in restricted places. *T.* Large, showy species. Hardy where the roots are kept below ice; some species with water protection. Tropical species, easily grown anywhere during summer. **ST** Sub-Tropical.

The species of Caladium, Alocasia, Musa, Maranta, Hedychium, Heliconia, Amomum, Zingiber, Iris, Canna, and others, can be grown with good effect on the low, moist ground surrounding lakes and ponds, and in similar damp locations.

The best time to plant Aquatics is during warm spring weather, or summer. Nymphaeas may be planted along the edges of ponds or streams, in not over a foot of water, and manure can be dug into the soil with advantage. You can not make soil too rich. For tubs, use very rich soil and manure, with gravel or sand on top, to keep the water clean.

**Cyperus alternifolius.** *T.* See Dept IV. Cyperus papyrus. *T.* (Cyperus antiquorum.) Egyptian Paper Reed, or Moses Bulrush. The triangular stalks support a large tuft of long, thread-like leaves; exceedingly graceful. Forms large clumps 4 to 7 feet high in rich soil. 25c, $2.50 per doz.

**Limnochernes sphaera.** *T.* (L. Humboldtii.) The Water Poppy. Floating leaves and bright yellow flowers, 2 to 3 inches wide, very freely produced. A gem. 10c, $1.00 per doz.

**Limnornithium.** Spongium. *T.* A small native plant with floating leaves, which are filled with large air cells, of peculiar construction. 10c, $1.00 per doz.

**Limnocharis flava.** *T.* (L. Humboldtii.) The Water Poppy. Floating leaves and bright yellow flowers, 2 to 3 inches wide, very freely produced. A gem. 10c, $1.00 per doz.

**Plumier.** *T.* An erect plant with pale yellow flowers of small size. 10c.

**Myriophyllum.** prosperpinacoides. *T.* Parrot's Feather or Milfoil. An elegant trailing plant, the stems covered with whorls of very delicate foliage, especially suitable for vases in fountains, etc. 10c, 50c per doz.

**Nelumbium.** A splendid genus of aquatics with very ornamental foliage, which stands well out of the water, and in late summer are surmounted with the magnificent flowers, more or less fragrant. They are all fine for tubs, and hardy where the roots are not frozen.

**N. Kermesinum.** The earliest flowering variety, with rose-pink flowers; quite distinct. $1.50.

**N. pinnatispinum.** The best dark colored variety; flowers of a rosy-carmine, very large and handsome. $4.00.

**Nymphoides.** glauca. Large flowers, very double; deep pink in color. $2.50.

**N. Shiromani.** The grandest sort of all, with enormous snow-white flowers, exceedingly double and free-blooming. $3.00.

**N. speciosum.** The Egyptian Lotus. Flowers pink, creamy-white at base of petals. Fragrant. This is the best known species. $1.50.

**Nymphaea.** (Catastata.) The Water Lily or Pond Lily. The most desirable genus of all aquatics, comprising a great variety of species, with flowers of all colors, richly scented and lasting well when cut.

Those in the day-blooming group are as follows:
FLOWERS

**N. coerulescens** *T.* Flowers pale blue from 4 to 6 inches across, very fragrant. 75c.

**N. Marliacea carnosa** *H.* A vigorous, hardy sort, with flowers of a soft pink color. Blooms all summer. $1.00.

**N. Marliacea chromatella** *H.* A favorite bright yellow species of easy growth. Flowers 4 to 6 inches across. 75c.

**N. odorata** *H.* The native white pond lily, with large leaves and dazzling white flowers, 3 to 5 inches across. 25c. $2.00 per doz.

**N. odorata minor** *H.* A miniature form with flowers but 2 or 3 inches across. A fine subject for tubs. 25c. $2.50 per doz.

**N. pulcherrima** *T.* The Cape Cod pink pond lily. A beautiful species with rose pink flowers. 50c.

**N. odorata sulphurea** *H.* Very fragrant sulphur-yellow flowers, 4 to 5 inches across. 75c.

**N. pulcherrima** *T.* Giant flowers often 9 inches across, light blue with yellow stamens. Continuous bloomer. $2.00.

The Water Hyacinth. (*Piaropus* crassipes.)

**N. Robinsoni** *H.* Flowers large, floating, of a splendid orange-red shade. $1.00.

**N. tuberosa maxima** *H.* The flowers are cup-shaped, pure white with a strong aromatic fragrance. 25c. $2.50 per doz.

**N. tuberosa Richardsoni** *H.* A very double flower like a giant snowball, being a perfect globe. Always much admired. 50c.

**N. tuberosa rosea** *H.* A free-blooming deep pink species; highly desirable. 50c.

**N. zanzibarensis aurora** *T.* A superb blue flower, sometimes 6 to 10 inches across, highly fragrant. 50c.

**N. zanzibarensis rosea** *T.* Similar to above except in color, which is pink in varying shades. 50c.

**NIGHT BLOOMING SPECIES**

**Datura metel** *H.* One of the grandest hybrids ever produced. Freely produces flowers 6 to 10 inches across, cup-shaped, very double, glowing rose-pink, standing well above the water. $2.50.

**N. dentata.** *T.* A grand pure white flower, 8 to 12 inches across, petals opening out very flat. Fine, 50c. $5.00 per doz.

**N. devoniana.** *T.* An early hybrid, with leaves sometimes 18 inches across; flowers 6 to 10 inches; color pure red, very rich. 50c. $5.00 per doz.

**N. Lotus.** *T.* The White Lotus, with leaves 12 to 20 inches across; flowers white, outer petals pink; very robust. $1.50.

**FLEURANTRA virgincia.** *S.T.* Arrow Arum. Arrow-leaved plant growing about a foot high. 25c.

**PIAROPUS azurea** *H.* (Echlenioria.) The Blue Creeping Water Hyacinth. A fine plant never likely to be a nuisance in Southern waters as it is a free-blooming species. 15c. $1.50 per doz.

**P. crassipes.** *T.* The famous Water Hyacinth. A beautiful floating plant, with very bright flowers in spikes, lilac, blue and yellow; 2 inches across. Will grow in clear water in the house admirably. A valuable forage plant for cattle; will grow in ponds and streams all along the Gulf Coast. Special price for large quantities. 10c, 75c per doz.

**P. Martiana.** *T.* A choice plant, requiring good soil, not necessarily under water, but very wet. Spikes of small deep blue flowers. 15c. $1.50 per doz.

**PISTIA stratiotes.** *S.T.* Water Lettuce. A pretty, floating plant, sometimes 6 to 8 inches across the rosette of velvet leaves. 10c, 50c.

**SAGITTARIA montevidensis.** *T.* The Giant Arrow Head. Broad arrow shaped leaves; white flowers in spikes. 25c.

**THALIA divericata.** *S.T.* A magnificent native, ornamental bog plant, which may be grown at the North as easily as a canna. The enormous leaves, with red midrids, resemble the banana and are 2 to 4 feet long. Flowers purplish, borne high on stems 6 to 10 feet tall. 20c. $1.50 per doz.

**TYPHA latifolia.** *H.* Cat-Tail Flag. A very decorative bog plant well known everywhere. 15c. $1.00 per doz.

A collection of 5 choice Aquaticos, our selection, for $1.00. Remember, postage is paid by us on plants ordered by mail, and we send strong, vigorous plants, sure to please you.

**TESTIMONIALS FROM THE SOUTH**

_Galveston, Tex., June, 1911._—"I received the plants sooner than expected; of course they were in fine condition, having been packed so carefully, and are gethling plants. They are now growing so nicely I am sorry I did not get others that I want, but will wait until fall." _Mrs. G. W. Grover._

_Texarkana, Ark., Tex., May, 1911._—"Plants reached us in good condition, and are very satisfactory." _Stegall Floral Co._

_Vicksburg, Miss., April, 1911._—"The plants received some days ago in good condition, and most say I am indeed pleased with them. Many thanks for the extra." _Miss Nellie Tucker._

_Piedmont, S.C., April, 1911._—"The fine box of plants so beautifully packed came several days ago in perfect condition. Many thanks for the many extras. All are grand." _Mrs. Exie Eldred._

_Zebulon, Ga., April, 1911._—"I am sending a club order for plants as we were so pleased with the others that I have to order for my neighbors. Please give the discount to them in larger plants." _W. W. Mitchell._

_Baton Rouge, La., March, 1911._—"Enclosed herewith find order for caladiums and other plants. The last lot was received in splendid condition." _W. W. Grisamore._

_Supt. of Grounds, La. State University._
All the following Coniferous Evergreens are entirely hardy in Florida and the Lower South, except Araucaria, which grows in protected places, south of Orlando and Tampa. Our conifers are carefully grown, having plenty of space allowed for proper development, and are healthy and vigorous. Write for special rates for stock in quantity.

Araucaria Bidwilli. Bunya-Bunya Pine of Australia. A grand tree of symmetrical growth with branches from the ground up. Reaches enormous size and does well in South Florida, standing severe frost. $2.00 to $5.00.

A. excelsa. The "Norfolk Island Pine." A grand decorative subject both for potted trees when small, and open air in the Tropics. Will stand little frost. Elegant plants 10 to 15 inches high $1.50. Larger $2.50. Specimens priced on application.

A. excelsa glauca. Foliage of a delicate silvery color, sometimes bluish; very beautiful. Pine plants $1.50.

Callitris robusta. The Cypress Pine. A very vigeorous tree resembling our native Juniper, succeeding on very poorest sand. $1.00.

Cassaria tenuissima. The "Australian Pine," or Beef Wood. Used very extensively in extreme South Florida as a street tree, and for wind-breaks. Small plants 15c, $1.50 per doz.

Cedrus Deodara. The Deodar, or Great Cedar of the Himalayas. Foliage somewhat like a pine, blue-green. 2 yr. old 25c, $2.50 per doz. Nice plants about 18 inches high 50c, $5.00 per doz.

Cupressus. The Cypress. A genus of most beautiful trees, varying in size, but all we offer are very desirable species. They do well in Florida and are highly recommended.

C. Beddomeana. A very slender species resembling Cupressus sempervirens in habit. Strong stock 25c and 50c.

C. funebris. Funeral Cypress from China. Foliage and branches pendulous. 25c and 50c.

C. Goveniana. Reaches a height of 50 feet with a broad pyramid head. 25c, 50c and 75c.

C. Knightiana. A fine Mexican variety with the young branches of a violet or glaucous color. 50c.

C. Lawsoniana. A graceful California variety; drooping branches; silvery green foliage. 25c and 50c.

C. sempervirens. An exceedingly slender tree, largely used in Oriental cemetery planting. 35c, $5.50 per doz.

C. sempervirens pyramidalis. Common cypress of Western Asia and Southern Europe. The type is very slender, but the form pyramidalis is more cone-shaped, broad at the ground and tapering up, more or less slenderly. We have a splendid stock of these trees which are a success all over the entire South. 8 to 12 inches high 15c, $1.50 per doz.; 12 to 18 inches 25c, $2.50 per doz.; 18 to 24 inches 35c, $3.50 per doz.; 24 to 30 inches 50c, $5.00 per doz.

Juniperus barbati. Our native Red Cedar. Differs slightly from the Virginia Cedar. 25c.

Pinus canariensis. The Canary Island Pine. A tall tree of 60 to 70 feet of pleasing symmetrical growth. 1 yr. 15c, $1.50 per doz.

P. excelsa. The Lofty or Botan Pine, from the Himalayas. Leaves fine, long and frequently blue-green. 2 yr. 20c, $2.00 per doz.; 3 yr. 30c, $3.00 per doz.; 4 yr. 50c.

P. halepensis. The Aleppo or Fennel Pine. The most common pine of Palestine, a low spreading tree 20 to 30 feet high; its resin is used to preserve wine. 4 yrs. about 2 to 21/2 ft. 35c, $3.50 per doz.

P. longifolia. The Emoli, or Cheer Pine, from India. A large tree, which does well in Florida. 1 yr. 20c, $2.00 per doz.

P. Massoniana. Japan Pine. This reaches a height of 50 feet and furnishes excellent lumber of a deep-red color. 2 yr. 15c, $1.25 per doz.; 3 yr. 25c, $2.50 per doz.

Taxodium imbricarium. One of the two native Southern Cypresses. A great timber tree; it is also a beautiful ornament when well grown. 1 yr. from open ground, 20c, $2.00 per doz.; 3 yr. pot-grown, 35c.

Thuya (or Biota.) This well-known California variety; drooping branches; some choice species for Florida and the South. They grow on any fairly well-drained land, and are especially suitable for forming hedges. 50c.

T. occidentalis. American Arborvitaes. A large bush, or small tree, admirable for hedges. Foliage flat and
very dense, highly odorous; 10 to 14 inches high, 25c, $2.50 per doz.; 24 to 30 inches high 50c, $5.00 per doz.

T. orientalis. Chinese Arborvitae. A slender tree, with flat foliage, rather open in its natural state, but very suitable for hedges, as by shearing it gets to be very dense. Strong stock, transplanted, in open ground as follows: 10-15 inches high, 20c, $2.00 per doz., $15.00 per 100; 15 high 30c, $3.00 per doz., $20 per 100. From open ground, strong stock, 20c to 35c. Very large specimens $1.00 to $3.50.

T. orientalis aurea nana. The best golden-tipped form yet produced. Of a rich golden color which is very attractive. 35c to $1.00.

T. "Rosedale Hybrid." A very unique and handsome dwarf species, with dark green, sometimes glaucous, sometimes bronze, foliage, of

Thuya orientalis compacta in our grounds.

to 18 in. high, 30c, $3.00 doz., $20.00 per 100; 2 to 3 ft. 35c, $3.50 doz.; 3 to 4 ft., 40c, $4.00 doz.; 4 to 5 ft., 50c, $5.00 doz.; 5 to 7 ft., 75c, $7.50 per doz.

T. orientalis compacta. Conical in form, exceedingly dense and regular. A fine dwarf species, suitable for cemetery, park and general planting in many ways. Pot plants 6 to 8 inches high 20c, $2.00 per doz., $15.00 per 100; 8 to 10 inches dense habit and conical shape. Pot-grown, 5 to 7 inches high, 20c, $2.00 per doz., $15.00 per 100. Large specimens 50c to $2.00.

A collection of 6 choice Conifers, our selection, will be sent postpaid for $1.00. Ask for prices on large quantities of any stock needed. See discounts under paragraph 14, page 2.

TESTIMONIALS FROM CALIFORNIA

Anaheim, Cal., May, 1911.—"The trees came in good shape and are now beginning to put forth new growth."

Campbell, Cal., April, 1911.—"The palms and scions arrived in splendid condition."

San Jose, Cal., April, 1911.—"My plants came in fine order, and are doing well."

Napa, Cal., February, 1911.—"I never had plants to come to me in such fine condition, not a leaf broken or bruised. Many thanks for such nice stock."

Los Angeles, Cal., October, 1910.—"Plants arrived in good shape and I am well pleased with them."

Hollywood, Cal., July, 1910.—"Enclosed find order. All I got from you early in the year have proved to be remarkably satisfactory and I shall gladly recommend your firm to my friends."

San Luis Obispo, Cal., July, 1910.—"Goods came in fine condition. I am much pleased with the goods I get from you."
VII

Palms and Cycads

"THE PRINCES OF THE VEGETABLE KINGDOM"

Palms form one of our specialties, and we grow thousands of plants. They are kept growing in pots, enabling them to be moved or transplanted at any time without trouble. We use no heat except for a few most tender tropical sorts, during a few days of winter, and consequently our plants are in fit condition to be shipped every day in the year, and are healthy and stocky. For outdoor planting, we recommend their being set in spring or summer, so that they may be established before cooler weather. No class of plants makes such a tropical and elegant display as Palms. Make the soil very rich. A plant in open ground when once established cannot be fertilized too heavily. Where dry, mulching and watering must be attended to in their earlier stages; later, they can take care of themselves. In the autumn, in semi-tropical climates, Palms should not be cultivated so late as to cause rank growth in winter. In fertilizing, use considerable sulphate of potash, which will help Palms harden their growth and thus put them in good condition to stand freezing weather; if too much nitrogenous manure is used it causes a sappy growth liable to be damaged by cold.

For culture in pots, see that the soil is rich, but not enriched too heavily, and that drainage is perfect. Do not try to grow a small plant in an extremely large pot. As a general rule, use 4-inch pots for plants 10 to 15 inches high; 6-inch pots for plants 20 to 24 inches high, etc., and always in such size that the roots will have plenty of soil, without its turning sour. Cover the drainage holes with broken pottery or small stones or similar material, to keep the soil from dropping through, and to keep the waterway open. Palms in the house need some sunshine, and will do best with the morning and afternoon sunlight every day, only avoiding the heat of noon. They will exist and live for years with but little light, but are not healthy, nor will they grow fast. An even, rather high temperature suits them best, without drafts of air. The hardier sorts will be able to stand a temperature of 60 degrees and do very well, but below this they will not make much growth. Even an occasional drop to 45 degrees will not kill them, but they would prefer 70 degrees most of the time. In summer, Palms will appreciate plunging in the ground to the tops of the pots, in a half shady, moist situation. Sponge the leaves occasionally to keep them clean and free from insects.

Explanation of symbols.—* Those hardy enough to grow outdoors along the Gulf coast or Southern California, etc., or in a temperature not lower than 15 degrees Fahr. ** Tropical species, not being able to withstand more than light frosts without more or less injury. D Especially recommended for cultivation in greenhouses or for house decoration, although all sorts named may be thus grown if given suitable temperature.

All measurements are taken in natural position, above the pots.

Palms are all pot or tub grown and may be shipped any time of year.

View in plant house, showing Ptychosperma elegans.
ACROCOMIA sclerocarpa. * * The Groo-Groo palm of Trinidad. Tall, pinnate and sphy. Young plants 50c, $5.00 per doz. Larger at 75c.
A. Total. * * A quick-growing hardy pinnate palm, of large size; trunk 10 to 15 inches thick, covered with stout spines. Exceedingly ornamental. $1.00.

BACCA aliciae. * * A rare species from North Australia, of small size. Small 20c, $2.00 per doz.

Royal Palm Nurseries

Cocoschinax Garberi.

A. triandra. * * An Indian species having leaves from 3 to 6 feet long, and reaching a height of 20 feet. Of quick growth. Strong plants up to 3½ feet high at 50c, 75c and $1.00.

BACCATA australiaca. ** * D. Pinnate Palm from Mexico: dwarf and sphyry but beautiful. Elegant plants with character. 25c to $2.00.

CARYOTA mitis. * * * D. Fishtail or Toddy Palm. A splendid palm with peculiar bipinnate leaves; exceedingly ornamental either in a pot or when growing outdoors. Is of quick growth. Very good plants with character 75c to $1.50.

C. urens. ** * D. This resembles the preceding species, but makes larger size, with a trunk 10 to 15 inches thick. Small plants 25c, $2.50 per doz.

CHAMAEDOREA elegans. (?) ** * D. A new palm from Guatemala, pinnate-leaved, of slender quick growth. With character, 3 to 4 ft. $1.00 to $1.50.

CHRYSALIDOCARPUS lutescens. ** * D. (Areca lutescens.) A favorite for the greenhouse and home. Grows bushy and has elegant pinnate leaves nicely recurved. Bushy small plants 25c. Decorative plants about 2 feet high $1.00; about 3 ft. $2.00. Very large specimens $5.00.

COCOS. A very large genus of pinnate-leaved palms, mainly from South America, containing both tropical and hardy species. The hardy trees are especially desirable for Florida and the Gulf Coast for planting out on lawns and avenues.

C. Alphonseii. * This belongs to the C. australis type, is hardy and vigorous; leaves gray-green; fruit edible. 25c, $2.50 per doz.

C. australis. * Very hardy, slowly growing; leaves bluish-green. A small tree said to reach 30 feet. 25c, $2.50 per doz.

C. Bonneti. * D. Quite hardy, gray-green in color unless in deep shade, and very desirable for either pots or open ground culture. This is a beautiful Palm. Small 15c, $1.50 per doz. Larger, no character, 25c, $2.50 per doz. Forming character, 50c to $1.00.

C. corinata. * D. A tall, fast-growing species confused with C. plumosa, which it closely resembles. The two species are invaluable for scenic planting in South Florida, as they are tall, elegant-appearing trees, somewhat resembling the Royal Palm and being able to stand severe frost after they are well established. In the cooler places of South Florida they need to be protected through cold snaps for two or three seasons only. 25c, $2.50 per doz.; 2 to 3 ft., without character, 40c, $4.00 per doz.

C. Datil. * A very hardy and vigorous species of the C. australis type, with gray-green leaves. Reaches a larger size than C. Alphonsei and is very ornamental. 50c.

C. criopaphala. * A larger Palm of the australis type: very hardy and beautiful. Young plants. 25c, $2.50 per doz.

C. Gaertneri. * Similar to C. australis. 25c, $2.50 per doz. Beginning character, 50c and 75c.

C. plumosa. * D. A perfectly magnificent palm, resembling a Royal Palm, but of slightly smaller size (reaching a height of 50 feet or more), with great plumy leaves from 10 to 15 feet long, dark shining green. There is nothing to approach this and C. corinata for planting in semi-tropical regions, as the two similar palms will stand hard frosts after they attain some age, and beautify any landscape. They are beautiful as single specimens, in clumps, or as avenue subjects. Fine young plants, without character, 15c, $1.50 per doz. Larger, 25c, $2.50 per doz. Plants 2 to 3 feet high, 50c, $5.00 per doz.

Cycas revoluta.

C. nucifera. * * The Cocoanut Palm. Strong plants 75c. (Unmailable.)

C. species from Entre Rios. * A strong grower of the australis type. Strong plants 35c. (Unmailable.)
C. Yatal. * A very hardy species similar to C. australis. Beginning character, 50c, 75c and $1.00.

COCOThrinax Garberi. ** D. This dwarf fan palm, a native of extreme South Florida, has leaves silvery on their under surfaces. Characterizes when very small. Beautiful small specimens of decorative size 25c, 50c, 75c and $1.00.

CYCAS circinalis. * * D. A grand plant of large size, totally unlike the following species. $3.50 to $7.50.

C. revoluta. * D. The so-called Sago Palm. A splendid dwarf palm for house or grounds in the South, enduring much cold. Small plants 25c, $2.50 per doz.; imported plants, with 3 to 5 leaves, 50c, $5.00 per doz.; 5 to 8 leaves, 75c; 7 to 10 leaves, $1.00; larger, $1.50 to $4.00.

DICTYOSPERMA alba. * * D. A slender pinnate palm of quick growth. Nice plants 25c, $2.50 per doz.

HYBRIasteLE Wendlandii. * * D. A rare pinnate palm, with slender trunk 2 to 4 inches in diameter, of vigorous growth. 1 yr. old 25c, $2.50 per doz.; larger 75c.

HYPhorRuE Verschaffeltii. * * D. A medium-sized palm allied to Areca and requiring same culture. Pinnate leaves from 4 to 6 feet long, the midribs striped with orange-yellow on under side. A fine plant, 2 yr. old 35c, $3.50 per doz.; extra strong 50c, $5.00 per doz. Large specimens, 4 to 5 ft. high, $5.00.

LATANIA borbonica. * D. The well known Chinese Fan Palm. Formerly more widely used as a house palm than any other kind. It is a hardy, rather slow-growing plant, with broad leaves, usually of a drooping habit. Makes a fine decorative plant for either indoors or open air in the extreme South. Strong plants, no character, 15c, $1.25 per doz.; with character, 12 to 15 inches high, 25c, $2.50 per doz.; 15 to 20 inches high, 40c, $4.00 per doz.; larger but with imperfect foliage, 50c. Large specimens, about 2 to 2½ feet, $1.50.

L. glaucophylla. * * D. A rare species with deeply divided glaucous leaves, tinged red. A magnificent palm, which should be in every choice collection, as the massive, reddish leaves are absolutely different from any other palm. Does well in extreme South Florida outdoors. Nice, young plants with partial character 75c, $7.50 per doz.; extra strong, $1.00.

MARTINEZia Caryotaefolia. * * D. An elegant palm with foliage like the Caryotas, but spiny. Trunk slender, about two inches thick. Fine young plants with partial character 50c, $5.00 per doz.; larger plants in good decorative shape 75c and $1.00.

A group of Sabal Palmetto.

D. rubra. * * D. Commonly listed as Areca rubra. A fine pinnate palm requiring same culture as Chrysalidocarpus lutescens. Leaves finely tinted with red. A small palm with slender trunk. Nice plants 25c, $2.50 per doz.; 2 ft. 50c; 3 ft. 75c; 4 ft. or over $1.00.

DYPSIS madagascariensis. * * D. A dwarf and slender pinnate-leaved palm comparatively rare. Fine, strong plants showing character, 50c and 75c.

ELAEIS guineensis. * * D. The famous Oil Palm of the Guinea Coast. A splendid pinnate palm. From 50c to $1.00.

GUILIELMA speciosa. * * The rare Peach Palm of the Amazon. Pinnate-leaved; of quick growth; fruit edible. Is doing well in extreme South Florida, outdoors. Very beautiful but spiny leaved. Strong plants, $2.50.
NEOWASHINGTOMIA sonorae. * The best strain of the California Fan Palm, sometimes called "Washingtonia robusta." * Thread Palm, etc. A fine, slender palm with reddish-brown, blunt spines on the leaf-stems, and threads hanging from the leaves; used largely as a street tree. Small plants, 1 yr. old, 10c, $1.00 per doz. Larger, beginning character, 35c fully characterized plants, $1.50 and $2.50.

ORCHIDOXA boriunquen. * (Rorystonea bori-unquen). A Mexican Royal Palm, differing somewhat from the Cuban species, in being more vigorous and stocky. Does well in extreme South Florida. About 2 ft. high 30c, $3.00 per doz.; 3 ft. 50c, $5.00 per doz.

O. oleracea. * D. The Palmiste, or Cabbage Palm of Jamaica. A noble palm, much like O. regia, having coarser leaves and even more robust character, reaching a height of 100 ft. or more. 18 to 24 inches high, 35c per doz.; 2 to 3 ft. 50c, $5.00 doz.; 3 to 4 ft. 75c, $7.50 doz.

O. regia. * * D. The Royal Palm. This is one of the grandest of all pinnate-leaved palms, reaching a height of 125 ft. or more in the Florida Everglades, where it is rarely found wild. The great leaves are 15 feet or more in length. Our main nurseries were unable to secure this choice palm, beautiful specimens of which had been transplanted here for some years later by frost. When young the palm is brown and slender. Young plants, no character, 15c, $1.50 per doz.; larger, beginning character, 25c, $2.50 per doz.; about 10 ft. high, 35c, $5.50 per doz. A few larger plants, at 50c and 75c.

PHOENIX. The Date Palm. Pinnate-leaved palms of hardy character, many species of which will endure severe freezing unharmed. We recommend the various species for open-air planting on a large scale in Florida and protected Gulf Coast spots.

P. canariensis. * D. The Canary Island Date. One of the finest and most hardy for open-air planting. Leaves long and pinnate, closely set; trunk very large. Splendid for lawn and park planting along the Gulf Coast, as it is hardy and vigorous. Small plants, 1 yr. 15c, $1.25 per doz.; 2 yr. 25c, $2.50 per doz.; 3 yr. beginning character, 35c, $3.50 per doz.; 4 yr. 50c, $5.00 per doz. Larger specimens in 8 in. tubs, 3 ft. high, $5.00.

P. dalycifera. * The Commercial Date Palm. Does not fruit much in Florida or the West Indies, owing to humidity, but is a great success in Arizona and Southern California. Young plants only 10c, $1.00 per doz.

P. farinifera. * D. A dwarf species admirable for house decoration. The seeds are covered with a sweet, mealy pulp. Our stock is true to name. Fine plants, fully characterized, $2.50.

P. pumila. * D. A quick grower, with a slender trunk not over 6 inches in diameter. Fine for street planting. Young plants 10c, $1.00 per doz. Nice plants, with character, 2 ft., 50c, $3.00 per doz.; 3 ft., 75c, $7.50 per doz. Also 1 yr. 35c, $1.00.

P. reclinata. * D. A splendid palm for the house, or for open-air planting in South Florida and other warm regions. Leaves are aromatic and very dark green; tree grows quickly, having a trunk 5 to 8 in. in diameter, but unless suckers are removed the plant makes an immense plumeclump, trunk or trunks not being visible. It is especially fine when allowed to grow at the open. Can be used for street planting by cutting the small suckers for a few years, when they cease to smother the tree. We grow this in quantity. Small plants, 1 yr. old, 10c, 1 per doz.; 2 yr., no character, 15c, $1.50 per doz.; 3 yr., with character, about 15 to 18 inches high, 25c, $2.50 per doz.; 8 to 10 ft. high, 75c, $5.00 per doz.; heavy plants in 7 in. pots from $1.00 to $3.00.

P. reclinata var. Leonensis. * A stronger grower with more pinnate leaves along the leaf-stems than the type. Strong plants, characterized, 75c and $1.00.

One of our large Phoenix sylvestris, the Wild Date.

plants 6 to 8 in. high, 25c; beautiful plants 35c, 50c, 75c and $1.00.

P. rupicola. * D. One of the finest species for growing in pots for the house or conservatory. Has wide-spreading, arching leaves, the pinnate set closely along the midrib, and the plant carrying a larger number of leaves off the trunk. About 15c, $1.50 per doz.; better 35c, starting character 50c. Fine decorative plants $5.00.

P. sylvestris. * The Wild Date. P. regia. India. Tall fast-growing, with large trunk of twelve to fifteen inches in diameter, and very hardy. The crown is composed of a large number of splendidly large gray-green leaves; it is a grand palm for any parts of Florida, being as hardy as P. canariensis, the most hardy species of the genus, and of far quicker growth. Small, 1 yr.
15c, $1.150 per doz.; 2 yr. 25c, $2.50 per doz.; 3 yr. 35c, $3.50 per doz.

PYGOSTYX TELMA Alexandria. * * * D. A beautiful, smooth, pinnate-leaved palm, resembling the Seaforthia, but the pinnate are finer, with under surfaces of a slivery color. 2 yr., no character; 3 yr., $2.50 per doz.; 5 yr., $5.00 per doz.; larger with character at 1.00 to $3.00.

P. elegans. * D. (Seaforthia elegans.) Will always grow in the South, and is very hardy. A most graceful palm, eminently adapted for decorative uses. The beautiful pinnate leaves are from 2 ft. to 8 feet in length, dark-green and smooth, and the plant always carries a goodly number, making a superb subject for house decoration, and for the lawn in warm countries. This is really one of the finest palms for the South, standing chilly rooms in winter without dying at the tips. We grow it in large quantity and find it a universal success judging from our customers' letters. 1 yr. old, no character, 10c, $1.00 per doz.; 3-inch pot plants, no character, 15c, $1.50 per doz.; about 15 to 18 inches high, with some character, 25c; about 18 to 24 inches high, fine, 50c; about 2 ft. 2½ feet, 75c; about 3 feet, $1.00; about 4 feet, $1.50; about 5 feet, $2.00; about 6 feet, $2.50. Very splendid specimens in tubs, 9 ft. high, $10.00; 10 feet high, $12.00.

P. McArthurii. * * * * A dwarf species, which throws up numerous suckers, forming bushy plants. Beautiful large specimens, 4 to 8 feet high, from $5.00 to $10.00.

SABAL Adansoni. * * * D. Dwarf Palmetto or Blue Palm, of Florida and South Georgia. A stemless species, with dark blue-green, fan shaped leaves, growing 4 or 5 feet high. This, with all the Sabals, is particularly suitable for the "Gulf Coast country," being very hardy. Strong plants, beginning character, 25c.

S. Blackburniana. * One of the West Indian palm giants, with enormous leaves. Very choice and hardy. 2 yr. 16c, $1.50 doz.; 3 yr. 25c, $2.00 doz.; 4 yr. about 1½ ft. high 25c, $2.50 per doz.; larger 50c, $5.00 per doz.

S. caudatum. *(Inodes caudatum.) The Hat Palm of Porto Rico. This is probably perfectly hardy here, as it is closely allied to our cabbage palmetto. Commencing character, 50c.

S. glaucens. * * * D. This species has a beautiful bluish-gray coloring to the leaves, and is of quick growth, especially suitable for growing in the protected conservatory or conservatory, etc. Fine young plants, 3 yrs. old, 25c, $2.50 per doz.

S. mexicana. * Mexican Palmetto. Resembles S. Palmetto, but is heavier and more stocky. Strong plants. 25c, $2.50 per doz.

S. Palmetto. * The famed Cabbage Palmetto of the South. A tall tree with a large head of fan leaves. Very suitable for street planting in all our Southern States near the Gulf and Atlantic coasts. Has a number of economic uses. 2 yr. no character, 10c, 25c per doz.; 3 yr. 15c, $1.50 per doz.; beginning character 25c, $2.50 per doz.; from 3-inch pots with some character, 50c, $5.00 per doz.

S. sp. unknown. * A gigantic leaved palmetto, introduced here from an unknown source and different from the Seaforthia. The immense leaves are 6 to 8 ft. across, of a very dark shade of green. 18 to 24 in. high, 50c.

S. umbraculifera. * The tallest species known, reaching a height of 80 feet in the West Indies, having immense leaves with drooping habit, and long stems. 2 yr. 15c, $1.50 per doz.; larger and stronger, 35c and 50c.

SEAFORTHIA. See Pychoseripa elegans.

TERMINAX barbadensis. * * * D. Without doubt one of the handsomest of all small fan palms. A dwarf species with very slender trunk; leaves deeply cleft, almost circular, dark-green, on slender, graceful stems. Small, characterized, 25c, $2.50 per doz.; about 2 ft., $1.00; about 2½ ft., $1.50; about 3 ft., $2.00.

T. Morrisii. * * * * D. A new palm from the West Indies, exceedingly small when mature, not being over 2 ½ feet in height. Of slow growth and great beauty, this is very fine for small tables or for fern dishes. Nice plants, with character, 25c and 50c.

T. parvifora. * * * * D. Thatch Palm. Reminds T. barbadensis, but is larger and has broader leaf-segments when fully developed. When small an exquisite dwarf palm for decorating, the little plants being fully characterized, even if only 6 inches high and rivaling Cocos Weddelliana in beauty. Fine healthy plants, with partial character, about 4 to 5 inches high, 15c, $1.50 per doz.; a larger grade just right for miniature jardineires, 25c, $2.50 per doz.; 10 to 12 inches high, 35c, $3.50 per doz. Larger plants, 50c to $2.00.

T. radiata. * * * D. This resembles T. parvifora but is more finely divided. Plants with character, 50c.

T. species unknown. * * * D. A new dwarf species, leaves exceptionally deeply cleft and dark green. Nice plants, $1.00.

TRACHYCARPUS excelsa. * (Chamaerops excelsa.) Chusan Palm from China. Very hardy, enduring sharp freezing and living in middle Georgia with slight protection. A dwarf fan palm of slow growth. 1 yr. 10c, $1.00 per doz.; larger, with character, 25c, $2.50 per doz.

ZAMIA integrifolia. * (or Z. Floridana.) Our native evergreen. The Coontie sort, dwarf, rarely over 18 inches high. Strong plants. 25c and 50c.

LARGE SPECIMEN PALMS: A few rare plants, priced on application.

For other choice decorative plants often listed with Palms, see Pandanus, page 33; Dracaena, page 23; Cordyline, page 32.

Collection A.—Five small Palms, good sorts, all different, by mail for 50 cents.

Collection No. 1. Ten Palms, all different, in nice plants, sent by mail to any address for $1.00.

Collection No. 2. Ten Palms, in larger sizes than above, sent by mail for $2.00, 15c, $1.50 per doz.

Collection No. 3. Five Palms, all different, showing character, and ready for immediate decorative effect, for $2.50.

State whether wanted for outdoor planting or for pots. We will send a suitable selection.

Above offers are of Palms of our choice only.

As all Palms are pot-grown, they may be transplanted any time, or shipped any distance safely.

SOME TESTIMONIALS FROM THE NORTH

Philadelphia, July, 1911.—"Plants arrived this morning. Fine specimens. Thank you for prompt attention." Miss E. Chupfen.

St. Louis, Mo., June, 1911.—"Received those water plants all in good order, and thank you for your care." B. J. Pott.

Davenport, Iowa, May, 1911.—"My plants arrived in good condition, as usual. Kindly accept my thanks for the extras." Mrs. J. H. Carstens.

Owasso, Mich., April, 1911.—"I am sending you an order again. I always get such lovely ferns, etc., of you; better even than we get here in our greenhouses." Mrs. H. S. Johnson.

23
Varieties with the asterisk (*) are the more hardy sorts. Others should be kept from hard frosts, being tropical. Our list embraces a very choice collection and will be found quite complete. See special offers of collections of Ferns, at end of Department.

Ferns are becoming more generally grown as decorative plants for many special uses, as specimens for greenhouse or home, in groups in ferneries, and in fern-dishes for table decorations, etc. Most of the sorts we list can be grown into large specimens, for jardinieres and hanging baskets, if desired, and will be found useful for shaded places, where other plants would fail. In house culture these should all be given some sunshine, if possible, daily. The less light they get the more frail and weak they become. Soil should be generally rather light, with leaf mould, or very old, well-rotted manure. Too much manure is injurious, yet some sorts will be benefited with considerable added as a top-dressing. Concentrated fertilizers are not so well suited for Ferns as for more rank-growing plants.

Ferns are nearly all pot-grown and may be shipped out at any time of year.

ACHROSTICUM aureum. The Salt Water fern. A large native plant with coarse leaves growing in wet places along our coast. 35c.

ADIANIUM hybridum. A maiden-hair fern. A splendid new species similar in style to cuneatum but has heavier and larger foliage; the finest sort known for florists' use for cutting, and also the best for amateurs in the South, growing well for every one. A grand acquisition for house growth. Fine plants 15c, 25c, 50c and $1.00.

ASPIDIUM tsussimense. A fine dwarf fern for either single specimens or for filling fern dishes. 15c, $1.50 per doz.

A. thelypteris. A delicate native fern, with narrow fronds. 15c, $1.25 per doz.

A. unitum-glabrum. * A common native fern, growing 2 to 3 ft. high. Very rank grower, with long fronds. 10c, 50c per doz.

BLECHNUM occidentale. Dwarf plant with rich colored new foliage, of easy growth. 15c and 25c.

B. serrulatum. * Larger than the preceding species, this handsome native plant works in well, in large ferneries. Grows from 2 to 6 feet high. 15c, $1.50 per doz.

CIBOTIUM Barometz. This belongs to the tree ferns but has no trunk. The broad, elegant fronds are very beautiful and lace-like, with a delightful fragrance at times. Of quick and easy growth, this is a very popular house plant. 10c, $1.00 per doz. Very strong 25c, $2.50 per doz. Large specimens 35c and 50c.

CYRTOMIUM falcatum. The Holly Fern. This has dark-green, very broad pinnae and makes a

View in fern house.
fine specimen, up to 18 inches high. 15c, $1.50 per doz.

**POLYTHACA stricta.** An exceptionally pretty fern, always well furnished with beautiful, lacy fronds, 25c, $2.50 per doz.

**Ferns.** Fronds remarkably fine with a smooth, almost greasy appearance, and very dark green. Grows up about 18 inches high, 25c.

**GYMNOSPERMUM tartarea.** The Silver Fern. Tall and vigorous, with white powder on surfaces of the fronds. Needs plenty of light and heat. 10c, $1.00 per doz. Large, 25c, $4.50 per doz.

**HEMIONITIS palmata.** A very dwarf fern with broad palmate leaves, covered with a velvety down. 25c.

**LASTREA sp. from Jamaica.** A beautiful, vigorous plant of creeping habit, forming dense clumps about 18 inches high. Strong plants 25c. $2.50 per doz. Extra large 35c, $3.50 per doz.

**LYGANUM Moroideum.** A rare thing—a real vine that happens to be a true fern. Grows up vigorously to a height of 10 to 15 feet and makes a mass of the most charming lace-like growth, admirable as a specimen plant or when cut for decorations. Very useful to the florist. 25c, $2.00 per doz.

**EUPHONIUM splendens.** Dwarf, spreading rapidly, making good clumps. Strong plants 15c, $1.50 per doz. Extra large 25c, $2.50 per doz.

**NEMPHRODIUM hertpes.** Narrow fronds, with pinnae finely serrated. Reaches a height of two feet making good clumps. Strong plants. 20c and 40c.

**NEPHROLEPS.** The Sword Fern. The various species of this popular genus are the best-known house ferns, growing under Japanese Climbing Fern. A rare thing—a real vine that happens to be a true fern. Grows up vigorously to a height of 10 to 15 feet and makes a mass of the most charming lace-like growth, admirable as a specimen plant or when cut for decorations. Very useful to the florist. 25c, $2.00 per doz.

**N. ameripıpithii.** The "Lace Fern." A new form of the popular ruffled sword fern, with very broad fronds having exceedingly finely-cut sub-divided pinnae, overlapping and giving a heavy, rich effect. A splendid new plant of the highest merit. 15c and 25c.

**N. cordiíapa.** Stocky and dwarf, with beautiful dark-green leaves; a splendid plant, which should be used freely. Fine plants 10c, 25c, 35c and 50c.

**N. cordifolia.** Something like the preceding but with longer fronds not usually so dark-green, and growing up to 6 feet high. These fronds are very suitable for baskets. 10c to 50c for fine plants.

**N. davallioideis furnicas.** The "Stag-Horn-Boston Fern." A low-growing decorative plant, with the ends of the fronds and pinnae curiously divided and circled. A magnificent subject for a jardiniere, growing up to 4 feet high and 6 feet across! Small plants 15c, $1.50 per doz. Beauties 25c, 50c, 75c and $1.00.

**N. daffii.** A tufted dwarf species with branched fronds, growing up to 2 feet high rarely, 15c to $1.00.

**N. exaltata.** The Sword Fern of the Tropics, growing all around the earth. Formerly grown as a basket plant, but now superseded by the more popular variety, the Boston Sword Fern. 15c, $1.00 per doz.

**N. exaltata bostoniensis.** The Boston Fern. Widely grown and a general favorite. A grand plant for general decorative use, always fine and beautiful. Good plants 10c to 50c.

**N. exaltata cristata.** The Crested Boston Fern. More dwarf than, but similar to the N. Davallioideis furnicas in general appearance. Rare and choice. Small plants 15c, $1.50 per doz. Fine decorative plants 25c, 50c and 100c.

**N. pectinata.** Dwarf Sword Fern. This only grows up to about a foot high. Pretty and desirable. 15c and 25c.

**N. pericocius ttepannatisféda.** The Ostrich Feather Fern. Elegant, long fronds four feet in length, finely cut, of a peculiar charming color when young. Grows more upright than most sword ferns forming good specimens adapted for general decorative use. Needs a warm, light situation. Strong plants 15c to 50c.

**N. schoelii.** Scopol's Compact Boston Fern. A splendid new form of ruffled fern, partaking of the semi-dwarf habit of its parent, N. Scottii, with the added grace of the beautiful divided foliage. Fine plants 25c.

**N. Scottii.** Scott's Compact Boston Fern. A good form of the sword fern with broader fronds and a beautiful, green per plant than the common sort; semi-dwarf. A very fine fern. Strong, beautiful plants 15c, 25c, 50c and $1.00.

**N. superbiíssima.** A new sort, entirely different from all other sword ferns. The leaves are dwarf and compact, the pinnae being crowded and overlapped, is exceptionally dark green. 15c and 25c.

**N. sternum.** A dwarf fern, not over 10 to 15 inches high, spreading rapidly, making good clumps. Strong plants 15c, $1.50 per doz. Extra large 25c, $2.50 per doz.

**O. regalis.** The Royal Fern. This has broad, elegant, sub-divided fronds of great beauty, growing up to 5 feet. 5c and 25c.

**P. POLYPodium aureum.** The Golden Polypody. This has broad, coarse fronds, and grows in the fiber on palmetto trees. Distinct. 20c.

**P. Polypodium aureum.** The Golden Polypody. This has broad, coarse fronds, and grows in the fiber on palmetto trees. Distinct. 20c.

**P. Pteris crétaea albolíneata.** A low-growing plant with coarsely divided leaves striped with white. The best variegated-leaved fern we know. 15c and 25c.

**P. serrulata cristata.** This has crested ends on the fronds, making a pretty variation from the type 15c and 25c.

**P. victoriae.** A small plant, with foliage striped with white. Very pretty. 15c and 25c.

**SELAGINELLA. Club Moss.** Very delicate fern-like plants, reminding of the pre-historic coal age. They need heat and moisture and very little light. Fine for wardian cases.

**S. Braunii.** Erect species with curving fronds a foot long. Very beautiful and interesting. 25c.

**S. cupípídata.** A dwarf tufted plant. 15c.

**S. Scottii.** A rank creeping sort with free growths a foot long. 10c.

**S. uncínta.** Rainbow Moss. A creeping specimen, lying very flat, the fronds showing peacock-blue and bronze tints. Fine for edging or tubs, baskets, etc. 10c and 25c.

**S. Vogelii.** A fine, erect species with leaves from 1 to 2 feet high, and showing bronze coloration at times. 25c.

**WOODWARDIA angustífolía.** A native creeping species with coarse leaves about 10 inches high. Distinct. 10c.

**W. virginíca.** A large fern found in the South generally. It is suitable for collections of hardy kinds. 15c.
Foliage and Decorative Plants

In stly tropical, suitable for greenhouses, the living-room, warm business offices for bedding out in the summer at the North, or planting permanently in open ground in the tropics, and along our southern coasts, where only a slight protection from frost will be necessary. The surest method of protecting the stem and roots is to bank up with soil as high as one chooses, to keep out actual freezing; do this at the signs of the first hard frost and leave until growth starts in the spring.

Nearly all are pot-grown, so may all be shipped any time of the year.

ACALYPHA Godseffiana. A dwarf species. Leaves broad, green, margined yellow, and suffused more or less with pink. 25c.

A. filicinata. A fine shrubby plant, growing up to 8 ft. high. Valuable in all sizes. Foliage fern-like, exceedingly attractive. 25c and 50c.

A. Guilloylei. A handsome species with compound leaves which are variegated green, white and cream. Very showy for both pots and bedding. 15c to 35c.

ARDISIA crenulata. A half-hardy, broad-leaved shrub bearing a profusion of scarlet berries which last for months. Fine for Christmas decorations. 1 yr. 15c, $1.25 per doz.

A. crenulata alb. Berries white; when old they turn pink. 15c to 35c. 3 yr. 25c.

A. polycaphala. The largest sort in the genus growing in open ground up to 8 feet high. Fast growing. Leaves green, margined varying shades of red, pink and cream in cool weather is exceptionally gorgeous. 15c, $1.50 per doz. Extra large 25c.

A. Miltoniana. Of medium growth, with narrow, cut-leaves, green and cream-colored. 15c, $1.50 per doz. Extra large, 25c and 50c.

A. moschata. Moscato-leafed. A most gorgeous plant, foliage showing all shades of green, yellow and red, with curious markings. A fine plant. 15c, $1.50 per doz.; larger, 25c, $2.50 per doz.; extra large, 35c, $3.50 per doz.

A. terebinthina. Resembles the preceding, but with regular foliage, mostly of a rich red effect. A grand plant which should be planted very extensively. 15c, $1.50 per doz.; larger, 25c, $2.50 per doz.; extra large, 35c, $3.50 per doz.

ACHYRANTHUS. A well-known foliage plant, resembling Coleus. Purplish foliage. 10c, 85c per doz.

AMAGLYPTUS. A purple-leaved plant of trailing habit. Fine for baskets or as a cover plant. 10c to 75c per doz.

ARALIA elegantissima. Palmate, deeply divided leaves of a brownish-green color. 50c.

ASPARAGUS plumosus. A very fine, fern-leaved, climbing plant, particularly adapted for bouquets and all cut-flower work, etc. Lasts for days without water. May be grown outdoors in Florida and warm regions. A fine pot-plant for any climate. 10c, $1.00 per doz.; large decorative plants, 25c and 50c.

A. species Natal. A vigorous climber, with attractive foliage; and flowers in appearance and scent like the "Madeira Vine." Rare and new. 25c.

A. Sprengeri. One of our introductions from South Africa in 1888. Indispensable to every florist. The plant is best grown in baskets or on pedestals, so the long shoots may hang. A grand plant, ir any size. Fine plants in various sizes. In 3-inch pots 15c, $1.00 per doz.; 4-inch pots 25c, $2.50 per doz.; 5-inch pots 35c, $3.50 per doz.; 6 or 7-inch pots 50c, $5.00 per doz.

ASPIDISTRA lurida. A grand old decorative plant from Japan. Leaves broad and canna-like, slightly variegated with white. If grown in (it may be safely) in a shaded place continually, it has more white variegation than when in full sunlight. Grows about 18 inches high. 50c and $1.00.

CARLUDOVICA palmata. The Panama Hat plant. Resembles a palm, but has no trunk. Leaves palmate. A very decorative plant reaching a height of about 4 or 5 feet. Fine young plants 35c, $3.50 per doz. Larger, 50c, $5.00 per doz.

CODIAEUM variegatum. Crotons. Splendid shrubby plants with variegated foliage, both narrow and broad, requiring plenty of heat and moisture. No other genus of decorative plants can furnish such a variety of color. Grand plants for bedding out and for growing in pots or tubs. Mixed plants not labeled, small, all different. 10c, 20c, 50c, $1.00 per doz.; larger, 6 to 10 inches high, 15c, $1.50 per doz.; better, 25c, $2.50 per doz. Large specimens, 50c to $2.00.

Amable. (Sometimes called Varla. A lovely plant, having a very slow growth, protected by a thick, strong stalk. The color of the leaves is a soft shade of green. Pots or tubs, 50c. 

Banana plants grown during summer in the temperate zone.
purple, green and yellow. 50c, $5.00 per doz.

**Angustifolium.** Very narrow-leaved; green and yellow. 25c.

**Andreanum.** Broad-leaved, high color; orange, pale-yellow, etc. 50c.

**Aucubaefolium.** Broad and short in leaf; green with yellow dots, and bronze under surface. 15c, 25c and 35c.

**Aureo-maculatum.** Very small and narrow foliage; green, spotted yellow. 35c.

**Baroness Rothschild.** Broad leaves of crimson, yellow and green, sometimes showing pink. 50c.

**Cooperi.** Leaves yellow, veined and blotched, changing to red. 15c, 25c and 35c.

**Cornutum.** Leaves narrow, wavy-margined, dark-green, mottled yellow, midribs projecting at tips. 25c.

**Dayspring.** Leaves rather broad, orange-red mid-rib; broad-leaved. 10c and 25c.

**Dermannianum.** Small but broad leaves, bronze red, green and yellow. 25c.

**Disraeli.** Trilobed leaves of various shades of yellow and pale green; edges red. 35c.

**Evansianum.** Leaves three-lobed, veined yel-
low and mottled yellow, bronze and orange. 15c to 35c.

Fasciatum. Leaves obovate-elliptic; green, blotched yellow; petiolar pink. 35c.

Grayii. Something like Majesticum. 35c.

Hawkeri. Medium narrow leaf, mostly yellow. 25c.

Interruptum. Purplish-green above, with twisted midrib; broad-leaved. 15c and 25c.

Johannis. Long, narrow leaves; green, ribbed and tinged yellow. 15c, 25c and 35c.

Maculatum-Katoni. Broad, three-lobed leaves, green with circular yellow spots. 25c and 35c.

Majesticum. Leaves narrow and long, mottled green and yellow, shaded crimson. 15c, 25c and 35c.

Makoyanum. Broad-leaved, with chocolate and carmine markings. 15c and 35c.

Maximum. Large, broad leaves, cream-colored with green. 25c and 50c.

Morti. Broad, long leaves, green and yellow. 15c, 25c and 35c.

Nobilis. Broad-leaved, green and yellow. 25c.

Number Two (as previously catalogued.) Rather narrow leaves, something like Irregular, but with the colors of Gentia. Leaves are consistently divided, having hanging tips. 25c.

Picturatum. Narrow, long leaves, green, carmine, yellow, orange, etc. Very rich-colored. 15c to 50c.

Queen Victorias. Broad leaves, beautifully colored green, yellow, magenta and crimson. 15c, 25c and 35c.

Regina. Broad, short leaves; crimson, brown, green and yellow. 15c, 25c and 35c.

Splendid. Broad leaves, yellow and dull red on a green ground. 15c and 25c.

Stewartii. Broad leaves, yellow, green and red. 15c and 35c.

Tortilis. A curiously twisted and curled-leaved sort, marked red and green, with a touch of yellow. 25c and 50c.

Veitchii. Broad-leaved, green, pink and crimson. 15c, 25c and 35c.

Volatum. Medium broad, curled leaves. Green, with occasional colored midrib, or a series of leaves clear yellow. 25c.

COLEUS. The unequalled bedding foliage plant. Also useful for window boxes and porch boxes, etc. A good variety of colors and kinds. Fine plants 10c, 55c per doz., $5.00 per 100; large plants. 15c, 1.50 per doz.

COSTUS. A curious spiral flag, with orange-colored flower heads. Makes a good shrubbery plant in open ground here. 50c.

CROTON. See Codiaeum.

DIEPENBACHIA nobilis. A fine evergreen reseeding a dwarf Redwood, with broad leaves profusely blotched with creamy white. Needs heat and moisture. 15c and 25c.

DRACAENA fragrans. A large sort with heavy green foliage, which gives a tropical effect. 25c and 50c.

DRACONIUM asperum. A rare aroid, with a single pertuse leaf. 50c.

ERANTHEMUM albo-marginatum. (Formerly listed as Jacobinia sp.) A pretty, variegated leaved plant, foliage green, grey and white. 15c and 25c.

EUPHORBIA sanguinea. A shrubbery plant with broad, pointed leaves of a rich, bronze-red, or purple. 25c to 50c.

FICUS altissima. This is catalogued by a few prominent European firms as F. Chauvieri. A magnificent new rubber plant of our introduction from India. Large roundish-lobed leaves, with prominent veins. A fine specimen plant in all sizes. Beautiful plants 40c to $1.00.

F. elastica. See also Dept. III. Fine plants 40c to 75c.

G. pandurata. The "Majestic Rubber Plant." A new species with enormous banana-shaped leaves, of a rich green color; veins of creamy-white. A very fine house plant. Strong stock, $1.00 to $3.00.

F. farcilli. A thin-leaved shrub with finely variegated leaves; fruit (which does not mature usually) also variegated. 50c.

FITTONIA argyrophylla. A trailing plant with broad leaves; having a network of white veins. 15c.

GREVILLEA robusta. See also Dept. XV. Fine plants 10c to 50c.

GYNURA pinnatifida. "Veitchianica. "Velvet Plant." The stem and leaves are covered with glistening purple hairs—highly colored. 25c.

HELICONIA Lehmanni variegata. A stocky, broad-leaved plant somewhat resembling a miniature banana, with leaves narrow and creamy yellow, and having yellow stems. 50c to $2.00.

NEPHTHYTIS libriform. A quick-growing climber, with fleshy stems, like Philodendron in habit, having tri-lobed leaves. 20c, $2.00 per doz.

N. triphylla. Resembling the preceding but having leaves variegated with white. Fine. 25c, $2.50 per doz.

OPHIOPOGON japonicus variegatus. A dwarf plant with perennial leaves 6 to 12 inches long, very narrow and striped white and green. Flowers purple. 50c.

PANAX aureus. This and following species allied to Aralia, which they closely resemble. A fine foliage plant growing up to several feet high, but useful when small. Compound leaves highly colored with yellow. 25c to 50c.

P. excelsum. Foliage very finely cut. Makes a fine, bushy plant of elegant appearance. 25c to 50c.

P. plumatum. This has fern-like leaves and is of quicker growth than most others. The foliage is grayish-green, with suggestions of white in it. 25c to 50c.

P. species. A new, green-leaved sort, with very pretty, serrated foliage of distinct character and good habit. 25c to 50c.

P. victoriae. This has more white in the foliage than most variegated plants and is a splendid decorative plant in every size.

PANDANUS Baptisia. This "Screw Pine" is beautifully variegated with golden yellow—in other respects it resembles P. Veitchii. $1.00.
P. utilis. The well-known Screw Pine. Resembles a pineapple plant when small, having leaves with small red spines along the edges. A very symmetrical and handsome plant suitable for vases, etc. Beautiful plants in several sizes. Small, 15c; 10 to 12 inches high at 25c; 12 to 18 inches high, 50c; 18 to 24 inches high, 75c; larger, $1.00 to $2.00.

*V. veitchii.* Leaves beautifully striped with white. A magnificent plant. Fine plants of decorative sizes. 50c to $2.00.

Plants without variegation of this species, or with but a faint suggestion of it, may be had at 50c to $1.50.

**PHYLANTHUS nivosus var. rosco-pictus.** (Bryonia.) Snow Bush. Shrub with loose, rather wiry branches, somewhat zig-zag. Leaves compound, mottled with white and pink. A splendid plant for low hedges, borders, etc., or as a single specimen. The coloring is very fine, especially in hot weather. About a foot high 15c, $1.50 per dozen; $10.00 per 100; 2 to 3 ft. high, 50c, $2.50 per doz., $18.00 per 100. (All pot-grown.)

**POINSETTIA pulcherrima.** The Poinsettia. Now well known and generally grown by florists for decorating from November till March. The great scarlet bracts from 6 to 12 inches across remain vivid for many weeks. A great plant for warm countries. 10c, $1.00 per doz., $7.00 per 100. Heavier plants, 20c, $2.00 per doz.; $15.00 per 100.

**Double Flowered Poinsettia,** 25c, $2.50 per doz. POTHOS aurea. A clinging aroid plant with heart-shaped leaves, 6 to 8 inches across, green and golden yellow. Fine! Strong plants 15c.

**RAVENALA madagascariensis.** The famed Traveller's Tree. Has a trunk like a palm, with two ranked leaves which resemble banana leaves, but are heavier. A very striking object. 75c.

**SANSEVIERIA.** See Doz.

**STRELITZIA augusta.** Nice plants, $1.00.

**TALINUM patens variegatum.** A fine bedding plant with almost pure white foliage and interesting little pink and yellow flowers. Grows a foot or more high. 10c, $1.00 per doz. Larger, 20c, $2.00 per doz.

**TRADESCANTIA discolor.** This resembles an agave; leaves green on the upper, rich purple on under surfaces. Fine for vases either in shade or sunshine. 25c.

**ZEBRINA pendula.** The Wandering Jew. A creeping plant, fine for baskets or for covering large surfaces. Foliage green and purple. 5c. Sufficient for small basket, 10c.

---

Collection D. Five choice foliage plants, our selection, all labeled, sent postpaid, for 50c.

Collection Dl. Ten choice foliage plants our selection, all labeled, sent postpaid, for $1.00.

See Index for plants you are hunting for at the back of this book.

---

**TESTIMONIALS FROM SOUTHERN PATRONS**

**Algoa, Texas, March, 1911.**—"The plants you sent me the other day didn't reach me in very good condition,—no, their condition upon arrival was a little better than that; the best imaginable, as usual! No use of talk,—that familiar, long, "Royal Palm" box of plants has always been a source of great pleasure to me, even before opening same—to say nothing "after"! So I am sending you herewith another order," etc.

F. A. SLAVIK.

**Marianna, Ark, March, 1911.**—"The plants, ferns and palms just received in beautiful condition, and will say truthfully I never received anything like the quantity and quality of plants for the same money. Thank you especially for the extras."

MRS. P. D. McCULLOCH.

**Moultrie, Ga., March, 1911.**—"The palms and plants I ordered from you came safely and in beautiful condition. Thank you very much. All the ladies of the club were pleased with their plants, and others seeing how nice they are wish for some like them, so I enclose another order."

**Eagle Pass, Texas, February, 1911.**—"Was most agreeably surprised to receive my plants by mail and in perfect condition. This will render it much easier to order from your firm, as we had previously dreaded the express charges. With thanks."

MRS. W. R. SIMPSON.

**Morgan City, La., November, 1910.**—"The shrubs, etc., were all right, especially the palms." (Rev.) A. Sonny.

**Uniontown, Ala., March, 1911.**—"Your shipment received, and I am charmed with the plants. I have ordered from a great many nurseries but yours are by far the finest palms I have ever seen for the prices."

MRS. L. A. MORGAN.

**Modello, Fla., July, 1911.**—"Plants arrived in good shape; many thanks. They are putting out shoots already.

MRS. J. J. BEACH.

**Orange City, Fla., June, 1911.**—"The trees arrived in fine condition, and I am confident that we shall be able to get good results from them."

(U. S. Department of Agriculture's Experimental Grounds.)

**Tampa, Fla., April, 1911.**—"Finest rose bushes received this season—thanks."

HARRY PLATER

(U. S. Engineer's Office.)

**Miami, Fla., April, 1911.**—"The plants arrived in splendid condition."

And again, later: "I saw the mango trees you sent to Homestead, and must say they are the finest trees I have seen."

H. F. SCHULTZ

Special Agent U. S. Dept. of Agriculture.
Tropical Flowering Plants and Shrubs

Suitable for the greenhouse, warm-weather rooms of the United States from South Carolina around to upper California, with slight protection in the coldest parts. Protect from freezing by banking stems liberally with soil at signs of first hard frost. The tops will be lost but shoots will come again in the spring.

Nearly all plants in this section are poi-grown and may be transplanted at any time of year.

ACALYPHA Sanderi. Chenille Plant. Broad green foliage, with bright red flower spike like a cat-tail up to 2 feet long, from axil of every leaf. The plant grows up to 10 ft. high, but blooms when very small, and forms a strikingly brilliant plant 3c and 25c.

ACOKANTHERA spectabilis. Winter Sweet. Splendid evergreen shrub from South Africa, with broad leaves and flowers in a dense spray 2 ft. long; very fragrant. $1.00.

ALLAMANDA nervifolia. A choice bush; flowers golden-yellow, freely produced, bell-shaped, about 3 inches across. 25c.

ALSINIA nutans. Shell-Flower. A lily-like plant growing 4 to 6 ft. high, with gorgeous orange-yellow and white flowers. 25c.

ARTEMISIA odoratissima. The False Ylang-Ylang, or Cinnamon Jasmine. A choice flowering shrub, semi-climbing in habit, with broad glossy leaves, bearing yellow flowers delightfully scented with the fragrance of ripe bananas and pineapples. The fruit is also highly fragrant but inedible. Fine plants. 3 yr. 40c. $1.40 per doz.

BAphia racemosa. An erect shrub, with leathery dark green leaves and large racemes of white pea-like flowers, the standard petal marked with purple veins. 25c.

BEGonia. Mountain Ebony. An extensive genus of tropical plants, creepers, shrubs and trees. These we offer, however, are all desirable subjects for planting in warm regions for their beautiful flowers and interesting evergreen foliage.

B. alba. A tall shrub, or small tree, blooming in early spring. Large, pure-white flowers 3 to 4 inches across in profusion. 2 yr. 25c. $2.50 per doz.

B. furfuracea. A new, thorny shrub, with cream-colored flowers in summer. 25c.

B. purpurea. One of the most showy flowering shrubs we have available. The flowers, which come freely in early spring, continue opening for weeks and are about 3 inches across, resembling a costly orchid in color and shape. The color is purple and is deeply lavered, but the illumination will reveal tones of mauve and purple, with a touch of white. It is magnificent. Fine 1 yr. old 15c, $1.50 per doz.; 2 yr. 25c. $5.00 per doz.

B. tomentosa. The St. Thomas Tree. A fine small tree with charming yellow flowers. 25c. $2.50 per doz.

B. variegata. A very fine species resembling purpurea, but flowering in autumn. Flowers pink and very attractive. The large two-lobed leaves are very peculiar, closing at night. 1 yr. 15c, $1.50 per doz.; 2 yr. 25c. $2.50 per doz.

Begonia. A giant unnamed green-leaved species from Cuba. The white flowers are borne on stout stems above the foliage, 4 to 6 ft. high. 25c.

B. flowering Begonias. Several sorts, unnamed, at 10c. 15c. and 25c.

BOHEA amherstiana. Canary Island shrub. 50c.

BRUNFELSIA americana. A West Indian shrub, 4 to 6 ft. high, with broad evergreen leaves, and very fragrant yellow flowers which turn white as they age. 50c.

CAESALPINIA nagu. From Luzon, P. I. "A very attractive and sweet-scented, flowered scanda- lous and rare plant. 25c. $3.00 per doz.

CALIFURNEA lasiogyna. A fine shrub with compound leaves; flowers something like the pea, in large drooping spikes of the richest yellow.

CARISSA acaumina. A thorny evergreen shrub with small white flowers and ornamental red berries, excellent for hedging. 25c. $2.50 per doz.

CATEBASA spina. A slow-growing evergreen shrub, with small yellow flowers. Good for hedging purposes. Flowers trumpet-shaped; fruit yellow and edible. 25c. $2.50 per doz.

CESTRUM aurantiacum. A medium-growing shrub, with rich lemon-yellow to orange-colored flowers in terminal panicles. Very attractive. Flowers in spring. 25c.

C. diurnum. The "Day Jessamine." A quick-growing, large shrub, producing quantities of small, white flowers at intervals through the year, valuable for cut flower work. 1 yr. 15c. $1.50 per doz.; 2 yr. 25c.

C. nocturnum. Night-blooming Jessamine. Small, greenish-yellow flowers produced at intervals through the year in profuse numbers, overpoweringly fragrant. 15c and 25c.

CHERBOENDRON foetidum. A small shrub, with opposite, coarsely-toothed leaves, and lilac-purple flowers borne in dense capitulate corymbs. From China. 25c.

CORDIA Sebestena. Sebesten Plum, or Geiger Tree. A very beautiful shrub or small tree, with large, rough leaves, and immense flowering trusses. Blooms at 3 yrs. of age. 15c to 2 ft. 25c. 2 to 4 ft. 35c.

CUPHEA micropetala. (Parsonia.) A shrubby plant from 3 to 4 feet high; narrow, small leaves; small tabular flowers continually borne, scarlet and yellow in color. Quite showy. 25c. $2.50 per doz.

COOMBA spectabilis. A tall shrub with straw-colored and pink flowers. Rare and new. 35c.

DURANTA Plumieri, Golden Dewdrop. Delicately scented flowers in racemes followed by closely-set yellow berries which hang on for a long time, and are very ornamental. Bushy. 2 yr. 25c.

ERANTHEMUM pulchelimum. Grows about 4 feet high; dark-blue flowers in spikes, produced in winter. 15c. $1.50 per doz.; larger 25c. $250 per doz.

ERYTHRINA Poepiggiana. New introduction. 50c.

E. speciosa. One of the "Coral Trees." 25c and 50c.

GLYCOSMIS pentaphylla. A near relative of the orange, with broad evergreen leaves of a glossy green; berries freely borne several times a year are about half an inch across, salmiion-pink in color and are sometimes eaten and preserved. 25c. $2.00 per doz.; 3 yr. 50c; 4 yr. bearing size, 75c.

HIBISCUS rosa-sinensis. Chinese Hibiscus. Very useful shrub and flower for warm regions, etc.; well known. We have a good stock of following sorts: Single Scarlet, Single Pink, Single Salmon, Versicolor (single). Double Scarlet, Double Pink, Double Yellow (double pale pink). Strong plants 15c. $1.50 per doz. Extra strong, 25c. $2.50 per doz.

New Single Hibiscus, from carefully crossed flowers, resulting in some charming shades of pink, salmon and scarlet; variegated, etc. 50c.

E. ambigua. A hardy evergreen shrub, forming tropi- cally-evergreen leaves and showy orange-yellow flowers, which last a long time. 50c.

I. Dixiana. Flowers deep orange color. 50c.
JACOBINIA cocinea. Grows 4 feet high. A fine bedder with deep scarlet flowers in spikes, blooming constantly. 10c, $1.00 per doz.; larger 15c, $1.50 per doz.

J. species. Flowers yellow. Grows up to 5 ft. 20c.

SANDMICH. Arabian Jessamine. Flowers single, very fragrant, pure white, almost an inch across. Plant is shrubby or scrambling. Blooms constantly. Small, 10c, $1.00 per doz.; larger at 15c, $1.50 per doz., and at 25c, $2.50 per doz.

J. "Grand Duke." A very double flowered Jessamine; the blooms are frequently 2½ inches wide, and intensely fragrant. Foliage is dark-green and glossy. Fine. 15c and 25c.

J. "Mail of Orleans." Semi-double flowers. 1¼ to 2 in. wide, very fragrant and constantly in flower. Fine. 15c and 25c.

KOPSI species. Shrub, related to oleanders, with white or pink flowers. Very ornamental. 50c.

LASIANDRA macrantha. (Pleroma splendens.) A magnificent shrub with leaves like velvet, and flowers of most gorgeous royal purple, 2½ inches across. 50c, $1.50 per doz.

MARA natalensis. Much branched with glossy evergreen leaves, and quantities of shining black fruit holding for a long time. Large plants 20c.

MACKAYA bella. A very shrubby plant of easy growth here, flowering in spring. Flowers in racemes, pale lilac, about 2 inches long. Large plants 15c and 50c.

MEYENIA. See the Gardenia Group.

MURRAYA exotica. "Orange Jessamine." A grand shrub; leaves compound; flowers resembling orange blooms, coming several times a year. Very useful to the florist. Large plants, 50c and 75c.

OXANTHUS isthmia. A splendid flowering shrub similar to the following, but larger calyces and possibly more fragrant. New. 50c.

O. Natalensis. Related to Gardenia; with large, glossy leaves and elegant flowers in racemes. 50c.

PITOSPORUM viridiflorum. Flowers greenish-yellow, jessamine scented. Large plants. 25c and $1.

P. capensis alba. A pure white variety, 25c, $2.50 per doz.

PLUMIERA acutifolia. One of the West Indian Frangipanis. Leaves large, flowers white to lemon-yellow center, faintly sweet. 40c to $1.00.

P. alba. The famous white Frangipani. Flowers in bunches, very sweet; shrub semi-deciduous. 25c.

P. tricolor. Flowers with yellow throat, white above the yellow part and red around margins of segments, blooming in summer and autumn. 50c.

RENEALMA species, Porto Rico. Related to Alpinia. Flowers yellowish in scarlet bracts which remain indeterminately. 35c.

RUSSELLIA juncea. Fountain Plant or Coral Flower. Has a wiry mass of foliage, with scarlet tubular flowers. 15c.

STROBILANTHES isophyllus. A small bush with narrow leaves producing scarlet tubular flowers in very early spring. A fine pot plant also. 15c, 25c and 35c.

S. isophyllus. Not so bushy as the preceding, but bearing constantly. Single purple-blue flowers, about 1 ½ inches across. 10c, 85c doz.; large 15c, $1.50 doz.

TABERNAEMONTANA coronaria, fl. pl. Crape Jessamine, or Rose Bay. Large pure white, scented, double flowers produced at intervals. Leaves glossy, broad, evergreen. Makes a fine ornamental hedge, not defensive. Single plants 15c, $1.50 doz.; larger, of a flowering size, 25c, $2.50 per doz.

T. "grandifolia." A heavy plant that flowers preceding equally fine, at same prices.

T. speciosa Cashmere. A beautiful shrub, flowering constantly. The blooms are single white, with a yellow throat. In the centers, about two inches across, not scented. 15c, 25c and 50c.

TECOMA stans. Yellow Elder. A glorious shrub, or small tree with age, having handsome compound leaves and splendid rich yellow fragrant flowers in great clusters, profusely borne in autumn. 15c, $1.50 per doz.

THEVETIA ne-rifolia. Trumpet Flower. Flowers bell-shaped, yellow or salmon, about two inches across. Foliage long and very narrow. A fine large shrub. The seeds are known by sailors as "lucky seeds," and the fruit as "Tiger apple." This will stand some frost. Fine plants, 15c, 25c.

TUHRBERGIA erecta. (Meyenia.) Glossinia-like flowers of the brightest blue, 2 inches across, flowering almost constantly. Very fine. Large plants 19c and 25c.

T. erecta alba. Flowers white, with yellow throat. 10c and 25c.

TRIPHASIA monophylla. From Timor. Berries black, and leaves simple; the flowers inconspicuous. A dwarf shrub, related to the mei, of considerable interest; stands some frost, and makes a fine low hedge. 2 yr. 15c, $1.50 per doz.; large, 50c and 75c.

Collection TS. Five plants from this section, our choice, sent postpaid, for 50c.

Collection TSI. Ten plants, our choice, some rare species, sent postpaid, for $1.00. See Index for any plants you are hunting for, and par. 14, page 2, for discounts.
Such as will stand the winters of the lower South without injury, or, if damaged by freezes, will come up again in the spring vigorously.

Those marked P are pot-grown and may be transplanted at any time; the others should only be set in cool weather—say from November till March.

AZALEA indicà. P. The well-known Indian or Chinese Azalea grown so largely for Easter decorations. Some beautiful plants with heads from 12 to 14 inches across, very dense; will bloom profusely this winter in Double White, Double Pink and Double Red. At $1.00.

BUXUS sempervirens. P. Dwarf Tree Box. Used for edging or dwarf hedges. Nice plants 15c, $1.50 per doz., $10.00 per 100.

CALYCANTHUS floridus. Sweet Shrub. Deciduous. 2 yr. 15c, $1.50 per doz.

CAMELLIA japonica. P. The magnificent Camellia (or commonly called "Japonica"), so well-known over the South. Flowers in winter and early spring. Fine, imported, bushy plants, very strong, 15 to 20 inches high; double white and a variety of colored sorts, $1.00 to $1.50.

CITRUS trifoliata. This hardy member of the orange tribe is well worth growing as far North as the Great Lakes for its wealth of flowers and green twigs in winter. See Department II.

CLEVERA japonica. A smooth-leaved evergreen shrub of medium size. Flowers creamy white, very fragrant. 50c.

DAURÉNTO-NIA pruniflora. A leguminous shrub allied to Cassia, of very quick growth. Leaves compound, deciduous; flowers orange-scarlet, freely borne during most of the warm weather. 15c, $1.50 per doz.

DEUTZIA crenata. A fine spring flowering, deciduous shrub, double pink in color. Fine. 1 to 2 ft. 15c, $1.50 per doz.; 2 to 4 ft. 25c, $2.50 per doz.; 4 to 6 ft. 35c.

Double White. Same sizes and prices.

GARDENIA floridà. P. The Cape Jessamine. A splendid broad-leaved evergreen shrub, with very chaste, snowy-white flowers, which are exceedingly fragrant. 15c and 35c.

HIBISCUS syriacus. The Althea, or Rose of Sharon. A hardy deciduous shrub, with handsome flowers in many shades of color, coming in late summer and autumn freely. Prices, 1 yr. transplanted, 25c, $2.50 per doz.

JASMINUM officinarum. Double rose-purple.

Tutus - albus. Single white.

HYDRANGEA Okatsa. P. The best for general growth. Flowers in very large, round heads, pink or blue, according to soil! 15c, 25c; large bushy plants, $1.50.

H. thomais hoggii. P. A pure white Hydrangea. 25c.

J. primum. P. A new species; foliage small and pretty; flowers yellow, as large as a half-dollar, opening flat, scented, blooming in long sprays in winter, and keeping when cut. In water, indefinitely. An exceedingly valuable small shrub. We have

Jasminum primulinum trailing over a rose bush.
plants both in pots and open ground at 15c, 1.50 per doz.; better at 25c, 2.50 per doz.; extra heavy, 35c, 3.50 per doz.

**LAGERSTROEMIA indica.** **Grape Myrtle.** Too much cannot be said in praise of this beautiful deciduous Indian shrub. The masses of flowers are profusely borne from spring until autumn, on small as well as large plants. A splendid plant for bedding out in the North even, where it gives perfect satisfaction. Grand for hedges, single specimens, or masses, in general Southern planting. We have it in three shades of color: **Carmine, Light Pink and Purple.** 1 yr. old, 1 to 2 ft. high, 10c, $1.00 per doz., $8.00 per 100; 2 yr., 2 to 4 ft., 20c, $2.00 per doz., $12.00 per 100; 3 yr., 4 to 6 ft., 30c, $3.00 per doz., $20.00 per 100; 6 to 7 ft., 50c, $5.00 per doz., $35.00 per 100.

**LEONOTIS Leonurus.** P. **Lion’s Tail.** A quick growing, shrubby plant with soft foliage and queer, heavy tufted spikes of orange-yellow flowers. 25c.

in the South. The following named sorts are the most hardy, standing much more freezing than the others: **Carneum, Frederick Guibert, Laurifolium, Pierre Roudier, Mme. Planchon, Double Cream, Dr. Golfin, Mons. Belaquier, Sabory, Single White, Mme. Peyre, Debrun, Mrs. F. Roeding.** An exceptionally tender sort is Single Pink. We have upwards of 50 sorts being tried out. Prices, except where noted: 1 yr. (mostly 12 to 18 inches high) 15c, $1.50 per doz.; 2 yr. (mostly 2 to 3 ft.) 25c, $2.50 per doz.; 3 to 4 ft. 35c, $3.50 per doz.; 4 to 5 ft. 50c, $5.00 per doz.

**Atropurpureum.** Single, purplish-crimson, 1 yr., 25c. **Atropurpureum plenum.** Double, purplish-crimson, with occasional narrow white stripes. The deepest red of any sort: 1 yr., 25c.

**Carneum.** Single; flesh with pink lines in throat; very floriferous. All sizes.

---

**Crape Myrtle growing in the North,—a splendid bedding shrub.**

**LIGUSTRUM amurense.** **Amoor River Privet.** A white-flowered shrub, evergreen and hardy, used largely for hedges. 1 yr. 10c, $1.00 per doz., $8.50 per 100. Extra large 15c and 25c.

**L. ovalifolium variegatum.** P. This is variegated with yellow. A very fine evergreen suitable for large planting in many places. Large pot-grown stock 15c, $1.50 per doz. Extra large 25c, $2.50 per doz.; very large, 4 to 5 ft., bushy, 50c, $6.00 per doz.

Write for special rates on quantities of all Privets.

**MICHELLIA fuscata.** (Magnolia fuscata.) **Banana Shrub.** Fine, broad-leaved, hardy shrub. The brownish-yellow flowers are about an inch across, richly scented like ripe bananas, coming in spring. 25c.

**NERIUM Oleander.** The famous Oleander. A splendid subject for tall hedges, masses, or single specimens in the Lower South, as well as for tubs at the North. Our collection is unequaled in size. Debrun, Double carmine, with occasional white streaks. 35c.

**Double Cream.** Flower rather small but very attractive. 25c.

**Dr. Golfin.** Magnificent single flower; white inclining to pink, center streaked light crimson. New. 35c.

**Frederick Guibert.** Single flowers; light pink with crimson throat. All sizes.

**Gilbert Breray.** A very fine small to medium flower of a pale pink, double. 1 yr., 25c.

**Laurifolium.** Foliage short and distinct; flowers single deep pink. 1 yr., 25c.

**Lilian Henderson.** Pure white, double, medium-sized flowers. 1 yr. and 2 yr. sizes.

**Madonna grandiflora.** Pure white, double, large sized, very fragrant. 1 yr. and 2 yr.

**Mme. Peyre.** Double, creamy yellow, with darker center usually of a pink tinge. 1 yr. and 2 yr.

**Mme. Planchon.** Semi-double, rosy-lilac. New. 35c.
Mons. Belaquier. A good grower, with immense trusses of single pale pink flowers, 2½ inches across. 1 yr. 25c.

Mrs. F. Roeding. Splendid double, bright pink color of LaFrance rose; very fragrant. Petals frequently fringed. Small. 25c.

Pierre Roudier. Very double; cerise-pink; an early and free bloomer. New. 35c.

Savott. Double, small flower, pale pink; very fine. All sizes.

Single Cream. Flowers rather small. 1 yr. and 2 yr. 25c.

Single Pink. Shell-pink color; very large trusses; scented. A grand sort. All sizes.

Single White. A most hardy sort, blooming very profusely. Fine. 1 yr. and 2 yr. 35c.

Splendor. The old-fashioned, double, pink variety. A splendid large flower, sweet scented. All sizes.

Splendor variegatum. Flowers double pink; foliage white and green; very attractive. 25c.

Phlox subulata. An extremely hardy evergreen with white and cream flowers. 25c.

Pittosporum Tobira. P. Well-known Japanese evergreen, with creamy flowers in March. Used largely in hedging. Masnes, and Nippon, trained specimens. 8 to 12 inches, 25c; 3 ft., 50c; 4 ft., 75c. $1.75 per doz.

P. Tobira variegata. P. A rare form. 35c.

Prunus Laurocerasus. P. Carolina Laurel Cherry. A splendid broad-leaved evergreen with small, fragrant, white flowers and black fruit. Fine for hedges and general planting. 1 yr. 10c. $1.00 per doz., $6.00 per 100; 3 to 4 ft., 35c, $5.50 per doz.

Prunus ovalis. P. Broad-leaved, dwarf shrub with trusses of pink or white flowers. 25c.

The Rose is at home in the South, where we can produce flowers of all kinds nearly the year around. Here in Florida there is not a day in the year but some roses may be gathered, but high culture must be followed; fertilizer should be applied three to six times a year and the soil kept moist for two feet deep constantly. Enough pruning in the climbers and teas should be done to keep them free from old wood. Hybrid Remontants should have the stem cut off near the ground when gathering flowers, to induce a vigorous supply of flowering shoots from the base. Most of our plants are grafted or budded on Morgan stocks. Set roses deep and don't allow sprouts from the roots to choke out the weak grower. Very fine in October, November, December or January—never in the hot, wet summer season.

Climbing Roses here listed need not necessarily be trained as climbers. By keeping in bush form with judicious pruning you will find them more floriferous and satisfactory than most "bush" roses. For other hardy climbing roses see Dept. XIII.

Price of fine 2 yr. grafted roses, 40c. $4.00 per doz.

Climbing Bridesmaid. Tea. Rose pink, very double; beautiful in both bud and open flower.

Climbing Clothilde Souterrain. Very double, pale-pink.

Faulkner. A good robust grower. Very double, with pointed buds.

James Sprunt. Bengal. A great climber, with flowers of richest cherry-red, very double.

Norman Lambard. Tea. Buds rich deep pink, the open flower changing to light shades. Very vigorous.

Reine Mathilde. Noisette. A very choice rose; style like Bridesmaid. Pink, with suffusion of yellow at base of petals.

Minnie Frances. Tea. Might be called an improved Bon Silene. Very fine deep pink rose; vigorous. Splendid rose for Florida.

President Cleveland. Climbing Tea. A splendid climber; flowers pure white; perfect form.

Reine Marie Henriette, variegated form. Pale pink striped with the typical color of the parent.

Snowflakes. Tea. An exceedingly free flowering rose; white; flowers short-lived.

Spiraea. Revesis. Bridal Wreath. Well-known, hardy, deciduous shrub, flowering in the spring. 1 yr. 15c. $1.50 per doz.

S. salicifolia. A dense grower; small leaves on willowy branches; flowers small and white. Fine for cemeteries. 2 yr. 20c, $2.00 per doz. Very heavy, 3 yr. 35c.

S. Van Houttei. Resembles Revesis but has prettier foliage. An exceedingly fine and graceful shrub which should be freely planted all over the U. S. Hardy and very free flowering. 1 yr. 15c. $1.50 per doz. 3 yr. 25c. $2.50 per doz.

MORE TESTIMONIALS FROM THE NORTH

Cherry Grove, Ohio, April, 1911.—"The plants arrived in fine condition. You certainly packed the plants well, and yet so lightly." Mrs. Orrill Bennett.

Stapleton, S. I., N. Y., February, 1911.—"The plants arrived in fine condition. Thank you for the grand selection and nice large plants." Mrs. N. M. Klute.

Lyons, Neb., March, 1911.—"Plants came in prime order and I was most agreeably surprised at their size—larger in fact than some I had sent by express from Philadelphia some years ago (also by mail) are not known and admired far and wide, as the finest in the country. Accept thanks Mrs. Ben. W. Everett.

Harlan, Ind., November, 1910.—"The ferns came through in fine shape and I am well pleased with your selection, and thank you for promptness and extras." Mrs. Laura E. Reeder.
Tropical and Sub-Tropical Vines and Creepers

Suitable for the greenhouse, living-room, warm offices, the tropics and the extreme lower South, a wire or other support except Ficus and Bignonia and is largely used in South Europe and California for covering walls of houses, which it does perfectly. 15c, $1.50 per doz.; larger at 25c.

**F. villosa.** Similar in habit to the preceding species, but has much larger foliage, and is larger in every part: 15c, $1.50 per doz.; larger at 25c.

**JACQUEMONTIA pentandra.** A charming blue-flowered Morning Glory, native of Florida Keys. Rather delicate vine but very floriferous.

**JASMINUM gracillimum.** The graceful Jessamine. Very distinct and graceful habit; pretty foliage, many clusters of good-sized starry-white flowers nearly always in bloom; first-class. Very strong plants, 15c and 25c.

**PETREA volubilis.** The Queen’s Wreath. This magnificent vine has been on our grounds for years, but is so very difficult of propagation that we have hitherto been unable to grow a stock of it.

**BOUGAINVILLEA sandertiana.** Leaves of medium size, edges curling back to the touch; flowers produced freely in long branched panicles, of an exquisite shade of blue, changing to lavender in age; these appear at intervals through the year. $1.00, $10.00 per doz.

**PHILIBERTElla clausa.** A twining perennial, with glossy evergreen leaves, native on our Lower Keys. The flowers are pure white, very sweet-scented; borne in umbels. 35c, $3.50 per doz.

**QUISQUALIS indica.** Rangoon Creeper. A large twining shrub of rapid growth, having a profusion of star-shaped flowers in bunches on long stems. The flowers are white in the morning, changing to red before night; have a rich, fruity fragrance. 35c, $3.50 per doz.

**SOLANUM Seaforthianum.** A medium-sized, delicate vine with compound leaves and bunches of sky-blue flowers, which are followed by scarlet berries greatly liked by birds. Called in Mexico, “Tomatillo.” Fine plants 15c, $1.50 per doz.

**S. Wendlandii.** A very large vine with coarse pinnate leaves, but most elegant, produces sometimes sky-blue, flowers borne in great clusters 10 to 15 inches across, and lasting well. 25c.

**TECOMA capensis.** This has pretty pinnate leaves, and produces constantly an abundance of bright red, showy flowers. 15c and 25c.

**THUNBERGIA fragrans.** A perennial climber with pure white, fragrant flowers about 2 inches across. 15c.

**VALLARIA dichotoma.** Leaves smooth, dark-green; flowers white. A quick grower with attractive appearance. 25c.

**COLLECTION TV.** Five splendid vines, our choice, sent postpaid for 50c.
Such as will stand the winters of the South with little or no injury. All need wire or some kind of support, except Bignonia crucigera, B. Tweediana, B. radicans, Euonymus, and Hedera; these cling to any solid support.

Three marked P are pot-grown, the others in open ground, but all may be transplanted at any time of year except Wistaria and Bignonia radicans; these are deciduous and should be moved in winter only. All others are evergreen.

**BIGNONIA crucigera.** (B. capreolata.) The Cross Vine. A native plant with dark green foliage, and orange-red flowers. Clings to walls or tree trunks closely. 15c.

**B. radicans.** The Trumpet Creeper, a hardy vine of the North, but found doing well in South Florida as well. The leaves are compound, deciduous; flowers in great clusters, orange-red, about two inches across. 20c, $2.00 per doz.

**B. speciosa.** A magnificent vine with glossy, dark leaves and great clusters of large, purplish, trumpet-shaped flowers blooming here from March to May. A fast grower. 1 yr. old 15c, $1.50 per doz.; 2 yr. 25c, $2.50 per doz.

**B. Tweediana.** An elegant vine of delicate appearance, exceptionally fine for covering stone and brick houses or wooden if you choose — with splendid bright yellow flowers 2 inches across, in early spring. 10c, $1.00 per doz.

**CLEMATIS paniculata.** A very vigorous creeper, almost smothering itself in bloom in summer. Flowers are a nice purplish red across, pure white, star-shaped, followed by feathery seed vessels. 2 yr. 15c, $1.50 per doz.

**EUONYMUS radicans.** This has small green leaves which turn bronze in winter. Clings to any solid support unaided. 15c, $1.50 per doz.; larger at 25c, $2.50 per doz.

**FELSEMIUM sempervirens.** Carolina Yellow Jessamine. (Winter blooming. Flowers are bell-shaped, pure yellow, fragrant. 15c, $1.50 per doz.

**HEDERA Helix.** *P. True English Ivy.* 15c, $1.50 per doz.

**JASMINUM officinale.** *P. (or J. poeticum.)** Hardy Jessamine. Small dark-green leaves; fragrant white flowers of small size in summer. Strong plants 15c, $1.50 per doz.

**LONICERA Kalleana.** Hall's Japan Honeysuckle. A very strong grower with handsome foliage, which turns a pleasing bronze in very cold weather. Great for covering rocks, the ground or for trellises, etc. The flowers are pure white, changing to creamy yellow, fragrant, and are almost everbearing. 1 yr. old 15c, $1.25 per doz.; 2 yr. 25c, $2.50 per doz.

**L. sempervirens.** Coral Honeysuckle. This has rich red flowers, tipped with yellow; foliage smooth and glossy. 25c, $2.50 per doz.

**PITHECOCTENIUM clematideum.** P. Pure white, spring bloomer. Foliage compound, 15c, $1.00 per doz.; larger, 25c, $2.50 per doz.

**P. mucratum.** P. Flowers of good size, white and cream — colored, in loose panicles—lovely. A new plant which flowers in summer. 25c, $2.50 per doz.

**R H Y N C»SPIRUM.** See Trachelospermum.

**ROSA bracteata.** Macartney Rose. This is largely used as a hedge or fence plant. Leaves rather small; flowers large, single, pure white; grows on a great variety of soils. Light, 1 year, 15c, $1.00 per doz.; $1.50 per 100; heavy plants, 25c, $2.50 per doz.

For other roses see Dept. XI.

**SMILAX.** Our native evergreen "Green Brier" or "Bamboo Creeper." Don't confound the name with the greenhouse vine, Myrtiphyllum. This hardy plant is prickly and bears quantities of black or green berries; the cut masses of vines are used in large decorations being shipped from the South largely. Strong roots. 15c, $1.00 per doz.

**TRACHELOSPERNUM Jasminoides.** (Rhyncospermum Jasminoides.) P. "Star Jessamine." Small leathery leaves; flowers star-shaped, small, pure white, fragrant, in spring. Strong plants 35c, $2.50 per doz.

**T. jas. variegatum.** P. Foliage variegated, green-white and often pink. Very choice and attractive. 25c.

**WISTARIA brachybotrya rubra.** A vine of easy growth, with compound leaves and drooping spikes of rich blue flowers produced all summer freely. Deciduous. 1 yr. 15c, $1.50 per doz.; 2 yr. 25c, $2.50 per doz.

**W. chinensis.** The Chinese Wistaria. Purplish-blue flowers. 35c, $3.50 per doz.

For other varieties of the Chinese Wistaria see Dept. XI.

Collection HV. Five strong vines, our choice from this section, sent postpaid for 50c.
Tuberos, Bulbous and Herbaceous Plants

Explanation of the starring system.— * Those of a tropical nature, useful in frostless regions or for bedding out during summer at the North. ** Those of a semi-tropical nature, standing sharp frosts without serious damage. *** Hardy as far North as the Ohio river (or farther) in the open ground.

The best time to set this stock is in winter or early spring, although it would not be fatal to transplant at any time of year.

Some Fine New Fancy Caladiums.

ALOCASIA macrorhiza. * Plain green leaves of a very stiff appearance, reaching a large size. 25c.

A. macrorhiza variegata. * Leaves variegated with pure white. Rare. 50c.

A. Roezlii. * (Also known as Caladium marmoratum.) New. Green leaves with very numerous white blotches all over the surface. The leaves stand up and occasionally collect water, and it has been called "Neptune's Cup." $1.00.

See Xanthosoma and Colocasia for allied plants.

AMARYLLIS. See Hippeastrum.

CALADIUM bulbosum. ** Fancy Caladiums. Splendid ornamental foliage, dying down through the winter. Leaves arrow-shaped, marked with the brightest colors, red, green, yellow, purplish, and sometimes almost a transparent white. No other plant possesses more richness or delicacy in coloring. Prefers a moist and half-shaded place with rich soil. They are grand house plants and fine for window boxes, etc.

Alfred Bleu. Brilliant pink center, green edge, white spots. 20c.

Annibal. Carmine ribs and center, bordered golden-green. 20c.

Angostura. New. Deep transparent rose on a green ground, deep vivid scarlet ribs. Large grower. 30c.

Belloyme. Long leaf, bluish-green, densely freckled white. 15c.

Bilontra. Green with large, beautiful, transparent violet centers. 20c.

Blanche Wise. New. Glossy white center, with large red spots, gray-white zone, green border; a new color combination offered for first time. 50c.

Coacochee. Bright deep pink, changing to a deep metallic green, becoming almost pure white with a green border. Vigorous, fine for bedding. 15c.

Chantini. Deep red center, bright red midrib and nerves, edge green, colored densely with white spots. Vigorous and beautiful. 20c.

Comtesse de Maille. New. Metallic green lustré, suffused with deep, glowing red, ribs red, edge green, spotted pink. 25c.
D. M. Cook. Leaf wrinkled; plum color center with golden yellow zone; heavily spotted deep red, green border. A new color combination, and very distinct. Never offered before. 50c.

Don W. Red. Red predominates at all times, with a little green, finally the leaves attain a deep glowing pink color. 30c.

Dona Carmen de Macedo. Transparent rosy-red, with conspicuous green mid-rib and veins which are narrowly bordered by a thread-like white stripe. 20c.

Duc de Batibor. Shell-like, rather small leaf, with edge turned up. Bluish-green with light red mid-rib and many white spots. 15c.

Elsa. Changing from a deep green to a most intense deep pink, densely flecked with crimson. 20c.

Ernst Schmidt. White, with green veins. Very fine. 50c.

Gerupeba. New. Creamy-white with red spots and some few mosaic green blotches, crimson ribs. A choice variety. 30c.

Gurupa. New. Satiny red center, very rich, ivory-white ribs in form of a star, green border. A strikingly beautiful color pattern. 30c.

Hedwig Else Nehrling. Green, red mid-rib and white and red spots. New. 25c.

Herold. Medium green ground, spotted; splashed white; center of leaf gray, ribs deep crimson. 20c.

Hermione. Intensely vivid, rosy-red, with metallic reflections. One among the most gorgeous of all red caladiums. New. 40c.

Hildegard Nehrling. Has broad leaves, white, clouded green with deep red mid-rib and main nerves; in half shade almost pure white, in full sun suffused with a beautiful deep pink color. 25c.

Houletti. Deep green ground; white ribs and center, bordered gray; thickly spotted white. 15c.

Itacoiara. New. A grand and very distinct Caladium with jet black stems and large green leaves, which are suffused with rich pink; chocolate - brown ribs. 30c.

Itaqui. Very beautiful and new distinct sort, with deep crimson mid-rib and veins, border lighter red; whole leaf minutely covered with pink and white freckles on a deep green ground. 50c.

L'Ariane. Variable. Silky white center with a pink tinge. 20c.

Lord Derby. Leaves wavy-edged, mostly a rich pink, yet most attractive. 20c.

Mrs. E. G. Uhlein. New. Ground color varying from light to deep pink; transparent; ribs and veins green. Very refined. 25c.

Mrs. Jean S. Perkins. Green splashed with deep crimson, clouded with lighter red tints; very effective. A strong grower. New; never offered before. 50c.

Ouro Pino. New. First color entirely yellowish-orange with red ribs; changes into a very fine emerald-green, densely flecked with white. 30c.

Paraguassu. New. White ground; later some transparent very red spots appear and finally the entire leaf is covered with them. Strong grower and very fine. 30c.

Pedro Ivo. Creamy-white, with deep red semi-transparent spots. 40c.

Pictum. Rather long, light-green leaf, with a number of creamy-white and a few pure white spots. Attains a height of from 4 to 6 feet in good soil. 15c.

Picturatum. Pointed leaves, green, with red centers and veins. 20c.

Porto Novo. Leaf triangular and somewhat undulated. Light red center bordered by a white zone, edge green. Covered profusely with a number of rather large blackish-red spots. 20c.

P. W. Reasoner. New and not as yet disseminated in the trade. A gigantic grower, reaching 5 feet in height. Immense leaves of a cheerful light-green ground color, profusely spotted snowy white. Mid-rib and part of other ribs crimson-brown, a narrow light-green zone along ribs. Very distinct. 50c.

Reine Victoria. Deep metallic, glossy green with blue reflections, densely spotted white, finally almost pure white; now and then a red spot. 15c.

Roncador. Pink and white ground, green ribs and veins. 15c.

Stenomor. Large, rounded leaf, green; red center and mid-rib, large red spots. Fine for massing and very vigorous. 15c.

Sinimbu. White, with brownish-red veins. 40c.

Sobral. Large white and pink semi-transparent spots, with green veins. 50c.

Sonolche. Pink with green ribs. 35c.

Thomar. New. A very rich pink on a green ground, later almost entirely pink obliterating the green ground entirely. Scattered deep red spots. A magnificent variety. 30c.

Triomphe de l'Exposition. Leaves immense, brilliant red in center, deep-red zone, green border. 20c.

Truce. New. White, with red ribs. The white is often suffused with pink. A gem. 25c.
Venous. Deep green with metallic and steel-blue reflections. Lobes wanting; sinews whitish; leaf with a narrow red edge and distinct, narrow, white mid-rib. 15c.

Vesta. Green ground, greenish-white ribs and veins, surrounded by salmon-red, white spots. 20c. Vigorous. Large, glossy green, with large, pure white and a lesser number of large scarlet spots; fine for massing. Vigorous. 15c.

Canna * Splendid broad-leaved plants which give a tropical effect in bedding. One of the finest plants for general planting we know. Suitable for almost any and every place, no matter what the soil conditions. Their growth is so easy and flowers so freely produced that we wonder why they are not grown more widely. Rich soil, plenty of water, and a sunny location are essential. They are hardy. 15c.

Canna × mixed. Has a number of hybrid varieties. The flowers are of all sizes, colors, and shapes. Suitable for almost any and every place. Very hardy. 15c.

Canna × hortulanum. A new variety, having bronze foliage not too dark; flowers a pleasing orange-scarlet. Very attractive. 15c. 1.50 per doz.

Canna × xanthosa. The finest of the very deep crimsons, fine individual blooms in large trusses. Foliage green. Grows about 4 feet high. 15c. 1.50 per doz.

Canna × regina. An extra choice hybrid, of immense size. Very large flowers. 15c. 1.50 per doz.

Canna × reginae. A dwarf sort not over 2 1/2 ft. tall; leaves green; flowers large, of a rich crimson. 15c. 1.50 per doz.

Canna × sazanka. A very choice hybrid, of immense size, having beautiful flowers in large trusses. 15c. 1.50 per doz.

Canna × schiffneriana. A strong grower, of immense size. Flowers, immense, orange-scarlet, flame crimson. Grows about 4 feet high. 10c. 1.00 per doz.

Canna × spectabilis. This has green foliage and rich yellow flowers of medium size; grows about 4 ft. 15c. 1.25 per doz.

Canna × stanticalis. One of the finest crimson sorts. Rarely grows over 3 1/2 ft. high. Large flowers in compact cluster very effective. 10c. 1.00 per doz.

Canna × tricolor. An extra choice hybrid, of immense size. 15c. 1.00 per doz.

Canna × tricolor hybrid. A new sort, having bronze foliage not too dark; flowers a pleasing orange-scarlet. Very attractive. 15c. 1.50 per doz.

Canna × xanthosa hybrid. The finest of the very deep crimsons, fine individual blooms in large trusses. Foliage green. Grows about 4 feet high. 15c. 1.50 per doz.

Canna × sazanka hybrid. A very choice hybrid, of immense size. Very large flowers. 15c. 1.50 per doz.

Canna × virgata. An extra choice hybrid, of immense size, having beautiful flowers in large trusses. 15c. 1.50 per doz.

Mrs. Kate Gray. Very robust sort, with extra large green leaves; flowers orange-scarlet, overlaid with gold, and size from 5 to 7 inches across. 10c. 1.00 per doz.

Pennsylvania. One of the orchid-flowering Cannas with enormous flowers from 5 to 7 inches across, of an intense crimson color; overlaid with an orange sheen. Foliage plant grows 6 to 8 feet high. 15c. 1.50 per doz.

Queen Charlotte. Flowers rich scarlet-crimson, broadly banded with the same color and scattered dots of red on the yellow. Dwarf. 10c. 1.00 per doz.

Shenandoah. Bronze foliage, with pink flowers. Grows about 3 1/2 ft. tall. 10c. 1.00 per doz.

W. E. Cottrell. New. A beautiful dark salmon-pink flower, with a mottled border, 1 1/2 inches across. Leaves nearly 21/2 ft. tall. 10c. 1.50 per doz.

Wyoming. Bronze foliage; immense flowers of a rich reddish-orange color. 15c. 50c per doz.

C. fassica. Our native Orchid Canna. Dwarf habit, with clean, yellow flowers 3 to 4 inches across. Light green leaves. 10c. 75c per doz.

C. flaccida. A handsome Canna, a hybrid with Canna flaccida as one parent. Flowers of immense size, 5 to 6 inches across. Golden-yellow. A very beautiful sort of easiest culture. 15c. 85c per doz.

C. forficata. A Canna with a very fine spire of showy flowers; peculiar in being a self, very free flowering. 15c. 1.00 per doz.

C. glijan. A new variety, with large, purple, and violet flowers, having a vase-like shape. 15c. 1.00 per doz.

C. grandiflora. A sort, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.

C. grandiflora. A new variety, having a strong growth, and heavy flowers. None much larger. 15c. 1.00 per doz.
drooping in habit; not unlike Amaryllis Belladonna; exceedingly fragrant; very floriferous and of good substance, a single bulb often producing three flower-stalks in one season. $2.00.

**C. Kirkii.** The flowers are large, white, with a reddish-purple stripe on the outside of each petal, which, showing through, gives the flower a pink tinge on the inside; some ten or fifteen of these flowers are produced at the top of a tall purple spike, and there are frequently two or more spikes of bloom from the bulb during the season. In addition, the foliage is very handsome, the numerous wavy-edged leaves forming a perfect rosette. Fine large bulbs 15c, 25c and 35c.

**C. Kirkii X capense.** A hybrid, with flowers the size of Kirkii, of a delicate light color—pale-pink and white. 35c.

The summer. It blooms for months, during July to October 15, and is a first-class ornament for screens. It requires slight training. Tubers, 20c, $2.00 per doz.

**HEDYCHIUM coronarium.** * * Ginger Lily. Butterfly Lily.** This magnificent plant flourishes best on low, moist land, where it will form a dense clump 3 to 5 feet high. The roots are tuberous, and the plant may be safely grown over the entire South. The masses of fragrant, pure white flowers, looking much like large white butterflies, are borne in large clusters, terminal on

**Xanthosoma violaceum in one of our plant-houses.**

**C. Xanthianum.** Vigorous growing and abundant bloomer from New Granada. This is a grand species, with splendid flowers, dull white, tinged with rosy-red. 20c to 35c.

**C. scabrum.** Flowers dull white, tinged with rosy-red. Leaves light green, spreading, with wavy edges. 35c and 50c.

**C. virginicum.** A choice hybrid originated in England; flowers very large and widely opened, white and rosy-pink. 25c to 50c.

**CURCUMA petiolaris.** * * Queen Lily.** A choice plant with broad leaves like a canna, but strongly veined and arched. Flowers in large torch-like bunches, white, tinted pink, which last for weeks. 20c. $2.00 per doz.

**GLORIOSA superba.** * * A gorgeous, lily-like plant, growing 4 to 5 feet high and bearing quantities of deep orange and yellow flowers during every stalk. If kept in the house in a growing state, it blooms continuously. 10c, 35c per doz; larger plants may better be sent by express than by mail.

**G. virens.** * * Yellow Day Lily.** This flowers early and is a splendid plant for the South. Flowers are about 5 inches across, clear yellow and on long stems, above the foliage. 25c. **H. fulva** f. pl. * * * * The double-flowered form of the Tawny Day Lily. Flowers bright orange-yellow, very freely borne in early summer. This is a valuable, hardy border plant; will grow anywhere. 15c. $1.50 per doz.

**HIPPEASTRUM equestre.** * * (Amaryllis.)** Flowers large, bright red; of easy growth. 15c. $1.50 per doz.

**H. Nehring's Hybrids.** * * Exceptionally elegant flowers, scarlet, crimson, pink, white, striped,
etc., and very often fragrant. They are something grand. Bloom in spring only. Fine for pot and tub use. Flowering size, 25c. $2.50 per doz.

**BRYMOCALLIS caribaeum.** * (Pancratium caribaeum.) The Spider Lily, or Spanish Lily. A bulb of easiest culture, producing one cluster of small blossoms, often beautiful, for many years. A very popular houseplant. 10c., 50c per doz.; very large, 15c to 25c.

H. ova tu m. Foliage very broad and short. Flower large and fragrant. $2.00.

**IRIS hrixago, N.** Blue Flag. Evergreen. A hardy Southern variety of the greatest possible beauty. The loveliest flower of the whole South. Rich purple and blue with yellow markings; 3 to 4 inches across; resembles the costliest and rarest orchid flower. Blooms in spring. 10c., $1.00 per doz.

**KAEMPFERIA Gilberti.** * Leaves like a Cardamom, sometimes variegated; flowers on ornamental crimson heads, lasting all summer. 25c.

**MORAEA tricolores.** * "Natal Lily." An iris-like plant, succeeding here perfectly. Has beautiful white flowers, touched with yellow and purple. 25c.

**PANCRATIUM.** See **Hymenocallis.**

**RENECIA carnea.** * A tufted plant with creeping root-stalk, grassy leaves and rose-colored, fragrant flowers; from China. A useful pot plant, small bulbs, 10c. per doz.

**RICHARDA africana.** * Calla Lily. A good, old-fashioned plant, always popular. From Australia.

Collection B. E. Five plants, our selection labeled, sent postpaid for 40c.

Collection B. E. I. Ten plants, our selection, sent postpaid, and labeled, for 75c.

---

**ALBIZZIA Lebeck.** Woman's Tongue Tree. A handsome pinnate-leaved shade tree from Jamaica. Does well here; of quick growth. Resembles the Royal Poinciana, but leaves are not so finely cut. 5c to $1.00.

**A. fastigiata.** A new species from Africa, with very handsome leaves. 15c.

**A. procera.** A quick-growing beautiful species from India. 25c.

**ANDIRA incrius.** The Cabbage Tree. Foliation compound, evergreen; flowers in huge racemes, lilac-like, with a peculiar smell. Rare. 75c.

**BIGNONIA species.** The "Candy Tree." 50c.

**B. adenophylla.** Very rare. $1.00.

**BISCHOFIA trifoliata.** (B. javanica.) An East Indian tree, growing freely in our sandy soil. The foliage is of a bronze-green, distinct and handsome; compound. 25c and 50c.

**BOMBAAX malabaricum.** The Malabar Ceiba Tree. An enormous tree of quick growth; very susceptible to cold. 50c.

**BRACHYCHITON acerifolium.** Leaves 5 to 7 lobed; flowers bright red. Fine for street planting. 50c.

**CALCEDONIUM capense.** The Cape Chestnut Tree, of South Africa. An exceedingly handsome tree with rather large leaves, velvety to the touch. The flowers are produced in terminal panicles and are a splendid sight; color a beautiful flesh-pink. 75c.

**CAROLINAE princeps.** A large tree of quick growth from South and Central America. Leaves shining green, palmate; flowers -ink and white, of large size. Fine young trees. 35c, $3.50 per doz.

**CASTANEOCEPHUM australis.** The Moreton Bay Chestnut, from Australia. Has immense compound leaves; is of rapid growth, and handsome. 75c.

**CELONIX regia.** (Poinciana.) The Royal Poinciana. This is a beautiful, deciduous, tropical tree, bearing quantities of brilliant scarlet flowers in the spring. The leaves are large, decumbent, and a pleasing green of moderate rapid growth. Gives a striking, tropical effect. 12 to 18 inches high. 15c, $1.50 per doz.; 2 to 3 ft., 25c, $2.50 per doz.; 3 to 4 ft., 50c, $5.50 per doz.

**EUPHLYSTUS.** See Department III.

**FICUS altissima.** New. From India. This is a large-sized tree, which does well in extreme South Florida outdoors. The beautiful leaves are oblong and beautifully veined. It resembles the new F. pandurata. Splendid plants 46c, 60c and $1.00.

**F. australis.** Round leaves of a medium size, the undersides of a rich russet. A fine tree which makes a dense shade. Small. 50c.
Young plant of Ficus altissima.

F. Benjamiinii. Newly introduced by us from Australia. It is used as a street tree in Brisbane and is a beautiful species, small-leaved, of a drooping habit. 50c, $1.00 per doz.

F. Cunninghampii. A new species, lately introduced. This and F. infectoria are specially recommended as shade trees for extreme South Florida. 25c, larger, 5 to 7 ft., $1.00.

F. elastica. India Rubber Tree. See Department III.

F. infectoria. From India. One of the finest shade trees, with long, glossy leaves. Will do well in extreme South Florida outdoors. Trees in several sizes. 1 ft. 25c; 3 ft. 50c; 5 to 7 ft. $1.25.

F. macrophylla. Moreton Bay Fig Tree, from Australia. Resembles F. elastica, slightly; but has pointed leaves and yellow sheaths and petioles. A splendid species. Fine plants. 2 ft., 50c; 3 ft., 75c; 4 to 5 ft., $1.00.

GLIRICIDIA platycarpa. From Cuba. A tree of about 20 to 25 ft. in height; has lovely pink flowers. 50c.

GREVILLEA Hillii. A rare Australian tree with heavier foliage, but similar to the following species. We have it in two varieties, Pink Flowered, and White Flowered, at 50c for either kind.

G. robusta. Australian Silk Oak. A splendid fern-leaved tree, growing 120 ft. in height. Evergreen, and especially adapted as a shade tree for South Florida and South California, as it is as hardy as an orange tree. Also used in decorating apartments, etc. Makes a magnificent specimen. Strong plants 10c, $1.00 per doz.; larger (about 12 to 18 inches high) 15c, $1.50 per doz.; 2 to 3 ft. 25c, $2.50 per doz.; 3 to 4 ft. 50c, $5.00 per doz.; 4 to 5 ft. 50c, $5.00 per doz.; 5 to 6 ft. 75c.

HERNANDIA sonora. "Jack-in-a-Box" Tree, from India. Broad evergreen leaves; flowers whitish-green. Newly introduced. 75c.

HURA crepitans. The Sand Box Tree, of the West Indies. A medium-sized tree reaching about 40 feet, with poplar-like leaves and large, curious seed vessels, which, when ripe, burst with a loud noise, scattering seeds in all directions. 4 to 6 ft. 50c, $1.00 per doz.

JACARANDA mimosaefolia. A splendid tree with large, decompound, fern-like leaves, allied to Caesalpinia, with clusters of blue flowers. 35c.

LONCHOCARPUS sp. Cuba. A tree with large compound leaves; evergreen. Fine stock. 4 to 6 ft. high, 50c, $5.00 per doz.; 6 to 8 ft., 75c, $7.50 per doz.

POINCIANA regia. See Delonix.

PRUNUS sclerotiora. A dense-growing tree with very small pointed leaves, differing from anything we have seen. From India. Very stocky, large plants, 75c and $1.00.

PAULIA Humboldtiana. A willow from the tropics, which we cannot say is tropical or hardy, as it is one of our new introductions. It is a slender spire-like tree of fairly rapid growth. 75c, $7.50 per doz.

SCHIZOLIUM excelsum. A tall, magnificent foliage tree from Brazil. The stem shoots up straight like a palm with enormous pinnate leaves (like a gigantic Royal Poinciana), often 6 or 8 feet long. In the young state the tree does not readily branch. Strong, 50c and $1.00.

STERCULIA alata. New. From India. Large, pointed cordate leaves of striking beauty. This quickly reaches maturity, forming a large, fine shade tree for frostless places. Evergreen, 4 feet, 50c; 6 to 7 feet, 75c.

STEREOSPERMUM suaveolens. (Bignonia suaveolens.) A tree with immense, spreading, compound leaves, and dull crimson, very fragrant flowers. 50c.

STRYPHNOBRACHIDON guianensis. A leguminous tree of small size from South America. Branches pendulous, sometimes of a twining habit. 50c.

TRICHILIA spondioides. Butterwood Tree. Leaves pinnate; flowers greenish-yellow. A small-sized tree of tropical America. 2 to 4 ft., 75c.

TRIPLARIS Americana. 2 yr., 50c; 7 to 9 feet, $1.00.

Collection TT. Five trees, our selection, will be sent postpaid, all labeled, for $1.00.

Kansas City, Mo., September, 1910.—"The plants came in splendid shape. Thank you for such nice ones." Mrs. Harriet Davis.

Newton Highlands, Mass., May, 1910.—"The plants you shipped me have arrived safely." E. R. Cogswell, Jr.

Waterloo, Ky., May, 1911.—"Plants of my order came in fine condition. In the last 16 years I have received from you 63 packages of plants, and not one of them came in bad condition." J. W. Riggs, Experiment Grounds.

Washington, D. C., October, 1910.—"Accept our thanks for the Green Bombay mango that you so kindly sent us. It arrived in splendid condition." Peter Bisset, Of the Department of Agriculture.

Atlanta, Ga., March, 1911.—"It was a very great pleasure for me today, after sending my express box out home, to hear the comment and beautiful expressions over the exquisite selection of plants you have bestowed upon me. The attractiveness of your shipment and the very low cost of such a collection as compared with the ordinary prices of the florists throughout the South, that would give you the business you so richly deserve." J. R. Warrs, Mgr. (Watts’ Official Railway Guide of the South.)
For Florida, California and the lower South. The following list may be used as shade trees also: Hicoria pecan, see Department II; Cinnamomum camphora, C. cassia, some Eucalyptus, and Sapindus Mukrossi, in Department III.

Most of the stock in this department is grown in the open ground and should be transplanted during the winter. A few pot-grown plants, see those marked P., may be set out at any time.

ACEI rubrum. Our native Scarlet Maple, or Swamp Maple. The rich red flowers appear in mid-winter and are followed by the red-tinted new foliage; in autumn the leaves are richly colored also. 2 to 3 ft. $2.00 per doz.; 3 to 4 ft. 30c, $3.00 per doz.; 4 to 5 ft. 40c, $4.00 per doz.; 5 to 8 ft. 50c, $5.00 per doz. This grows well on hilly land as well as in a swamp.

CELTIS benthamii. About 2 ft., high, $1.50 per doz.; 3 to 4 ft. high, 35c. per doz.

C. occidentalis. Our hardy Hackberry Tree. Excellent for avenue planting. A fine shade tree, having a very dense round top. Life, 2 yrs.; 1½ ft., 15c. $1.50 per doz.; 2 to 3 ft. 25c, $2.50 per doz.; 4 to 6 ft. 35c, $3.50 per doz.; 8 to 10 ft. 75c, $7.50 per doz.

CELTIS orientalis. Small evergreen tree with leaves rough above and silvery pubescent beneath, and bearing small round black berries. ½ to 2 ft. high, 25c, $2.50 per doz.; 2 to 3 ft. 35c, $3.50 per doz.; 3 to 4 ft. 50c, $5.00 per doz.

GLEDITSCHIA fe- rox. P. This is nearly related to the Honey Locust and is protected by very queer branched thorns. Grows to 50 feet in height. 30c.

GORDONIA lasianthus. Loebell Bal. A native tree which should be more cultivated. A handsome, evergreen tree, with lovely, snow-white flowers. 3 inches in diameter, produced all summer. Will bloom when very small. Hardy as far north as Virginia, perhaps farther. 25c, $2.50 per doz.; 3 to 4 ft. 50c, $1.00 per doz.

ILEX Dahoorn. Dahoon Holly of the Southern States. One of the most valuable broad-leaved evergreen trees. Leaves a rich glossy green; tree covered with bright, shining red berries in fall or winter. 1½ ft., 15c. $1.50 per doz.; larger, 25c.

I. opaca. The Southern Holly. Leaves prickly; berries scarlet, and always in demand for Christmas decorations. Transplanted, 2 yr. old, 25c, $2.50 per doz.

LIQUIDAMBAR styraciflua. Sweet-Gum Tree. Hardy throughout the South. Naturally grows in a swamp, but thrives on high land as well. A splendid tree for street planting. Leaves handsome, maple-shaped, deciduous. 2 to 3 ft. 25c; 3 to 5 ft. 35c; 15 to 18 ft. $1.50; 18 to 20 ft. $2.00.

MAGNOLIA grandiflora. (Some P.) The Magnolia. The most magnificent of all our Southern broad-leaved evergreens. Flowers 6 inches across, pure white, waxen, and lemon-scented. 1 to 1½ ft., 25c; 3 to 4 ft. 50c; large trees, 1.00 to 2.00.

MELIA Azedarach, var. unbracliflorus. Umbrella China Tree. A very shapely, deciduous tree with compound leaves, creating a dense shade, 2 to 3 ft. high, 25c, $2.50 per doz.; 3 to 4 ft. 35c, $3.50 per doz.; 4 to 5 ft. 50c.

PARKINSONIA ac- uleata. P. A small leguminous tree with delicate pinnate leaves and a great mass of bright yellow flowers. A grand sight when in full bloom. Small plants, 50c.

PERSEA carolinensis. P. Red Bay or Sweet Bay. A handsome, native, deciduous tree, with pinnate leaves, and bearing small round black berries. ½ to 2 ft. high, 25c, $2.50 per doz.; 2 to 3 ft. 35c, $3.50 per doz.; 3 to 4 ft. 50c, $5.00 per doz.

Q. nigra aquatica. Our evergreen Water Oak, largely used in Florida as a street tree. Quick-growing and vigorous. Fine trees, nursery-grown, 1 yr. 15c, $1.50 per doz.; 2 yr. 2 to 4 ft. 25c, $2.50 per doz.; 4 to 5 ft. 35c, $3.50 per doz.; 6 to 8 ft. 50c, $5.00 per doz.; 8 to 10 ft. 75c, $7.50 per doz.; 15 to 20 ft. $5.50 to $9.50.

SAPUUM sebiferum. P. (Exoececaria sebifera.)
Chinese Tallow Tree. Resembles a poplar in foliage, which turns vivid colors in autumn. Seeds are coated with a kind of vegetable tallow. Pot-grown, 25c and 35c. From open ground, fine, clean stock, 1 to 2 ft., 15c, $1.50 per doz.; 2 to 3 ft., 20c, $2.00 per doz., $15.00 per 100; 3 to 4 ft., 25c, $2.50 per doz., $25.00 per 100.

Collection HT. Five small trees from this section will be sent postpaid (our choice, all labeled) for $1.00; or larger, by express or freight, at same price.

**TES:IMONIALS FROM FOREIGN COUNTRIES**

**Havana, Cuba, May, 1911.—**"I am planting the mango trees you sent, which I am glad to say reached here in excellent condition."

**Guadalajara, Mexico, June, 1911.—**"I have received by parcel post in very good condition the palms and ferns I ordered.

**Montego Bay, Jamaica, April, 1911.—**"The citrus trees came in the most perfect shape; so much so in fact that I planted the whole 72 and every one is alive and flourishing, notwithstanding 10 weeks of drought."

**Honolulu, H. I., April, 1911.—**"I received the packages of plants you sent, and am glad to say in fine condition."  

**Government Botanical Gardens, Saharanpur, India, March, 1911.—**"The plants you sent us arrived in very good condition, only one orange tree being dead; possibly two or three other plants may die. The remainder are growing nicely."  

**Ensenada de Mara, Cuba, March, 1911.—**"The trees arrived in good time and in excellent condition, and have proved most satisfactory in every respect. Thanking you for your care in filling this order,"  

**Honolulu, H. I., April, 1911.—**"The trees arrived yesterday and look like they will grow, one only had shriveled. The other plants were well packed and mostly growing well. I think you have been very successful considering the long distance."

**Tampico, Mexico, April, 1911.—**"The plants were received all in good condition. Thanking you for your prompt attention."

**Nassau, Bahamas, March, 1911.—**"The last lot of plants came in double quick time, and as fresh as can be. Here is another order for others," etc.

**Matanzas, Cuba, December, 1910.—**"My order was promptly filled and plants are splendid in size as well as condition."

**Cordoba, Vera Cruz, Mexico, November, 1910.—**"Very well pleased with the stock (orange trees) and especially with your light and efficient manner of packing."  

**We positively can ship to any part of the world in safety.**

---

**VITEX Agnus-castus. Chaste Tree.** A low-growing tree, with palmate leaves, scented like lavender. Flowers blue, in pretty spikes. A fine, hardy, desirable tree. 2 to 3 ft. 25c, $2.50 per doz.; 3 to 4 ft. 35c, $3.50 per doz.; 4 to 6 ft. 50c, $5.00 per doz.
Succulents and Epiphytes

Mostly tropical; suitable for the greenhouse, living room, offices, the tropics and warm coast regions of the United States. These may be transplanted at any time of year safely.

AGAVE. The Agaves, or Century Plants, are among the most valuable and striking plants that can be used in semi-tropical gardening. Many of them are useful as hedge plants, and the genus contains several of the most valuable fibre plants of commerce. They are all of great decorative value. The first three sorts named will stand considerable frost.

A. grandidentata. Partridge Breast Aloe. 35c.

BEOMELIA pinguis. Has the appearance of a large Pandanus, with deeply serrated leaves, and crimson center when mature. Small at 15c; larger at 50c to $1.00.

BRYOPHYLLUM pinnatum. (B. calycinum.) An odd and rapid growing succulent. Flowers green and reddish bronze, in form of bladders. One of those strange plants that are propagated from leaves. Extremely curious. The leaves may be pinned on the wall, and will throw out sprouts from every notch without watering. 10c, $1.00 per doz.

CEREAUS grandiflorus. The Night-Blooming Cereus. Cylindrical or 3-sided succulent growths without true foliage; flowers white, about 5 to 8 inches across. Will climb on tree trunks or any support. 15c and 25c.

C. triangularis. This is also a night-blooming cereus, resembling the preceding, and sometimes called Strawberry Pear, from the handsome fruit. Stems 3-sided. Flowers very fragrant, from 6 to 8 inches across, 15c and 25c.

DASYLIUM serratifolium. A yucca-like plant from Northern Mexico. A fine plant growing 3 ft. high. Leaves narrow, armed. Large, 75c to $2.00. Smaller plants 35c and 50c.

EPIDENDRUM tampense. A very pretty native orchid, growing on the bark of oak.

Air-plants ( Tillandsia utriculata) on a Live-Oak tree showing young Sabal Palmetto in the foreground.
etc. Is called **Butterfly Orchid**. Neat spikes of flowers in spring; pink, chocolate and green, lasting a long time in perfection. 15c, 25c and 50c.

**EPIPHYLLUM trinatum.** *Crab-claw Cactus.* A fine house plant, the succulent growths falling downward over the sides of pots or hanging-basket. Flowers come in midwinter and are very freely produced, of a rich deep pink. Nice plants, 15c and 25c.

**EUPHORBIA splendens.** Sometimes called **Crown of Thorns.** A low grower, having long, bronze stems, many spines, and brilliant, deep scarlet flowers, blooming all the year. Will thrive in an exposed, sunny, dry situation. 15c, $1.50 per doz.; larger, $2.50.

**FURCRAEA.** The Furcraeas are very desirable plants for the center of large tubs and beds of plants, for room, hall or outdoor summer decoration North. Will make a splendid specimen planted out in South Florida. They very much resemble some species of agaves, though the leaves are generally more upright-growing. Also highly recommended as fibre plants. Magnificent when in bloom, the flower-spikes reaching a height of 20 to 30 feet, with thousands of yucca-like whitish flowers.

**F. Beddinghausii.** 35c.

**F. foetida-gigantea.** This is an immense plant with serrated leaves, the flower-spike reaching a height of 30 feet. Very beautiful at all stages. The leaves produce a valuable fibre. Strong plants 15c, $1.50 per doz.; larger, 25c, $2.50 per doz.

**F. Lindenii.** A splendid, variegated species of peculiarly elegant appearance. The broad stripes of white show off very clearly. Rare new plant of recent acquisition, valuable as a house plant. Beautiful plants, 15c to $2.00.

**F. tuberosa.** Leaves longer and narrower than the preceding, spineless. A great many leaves to each plant. Strong plants, 50c.

**OPUNTIA leucotricha.** Upright, almost tree-like, with long, white spines on the leaves; flowers yellow. 25c.

**O. vulgaris.** The Common **Prickly Pear.** Hardy well up into the Middle States. A low-growing, very spiny species, with most gorgeous flowers of a bright-yellow color, three inches across. 10c, $1.00 per doz.

For other Opuntias, see Dept. II.

**PEDILANTHUS tithymaloides.** "**Red Bird Cactus.**" A West Indian plant, with thick fleshy leaves and small, red, showy flowers. Not a true cactus at all, but an Euphorbiad. Very curious plant of easy growth. Admireable as a border plant in frostless locations, especially where the soil is dry, as it grows almost as well in dry soil as damp. Fine plants, 10c, $1.00 per doz.; large plants, 20c, $2.00 per doz.

**PERESKIA aculeata.** The **Lemon Vine,** or **Barbados Gooseberry.** A climbing cactus with true leaves and producing edible fruit. Stems fleshy, with spines at the base of each leaf. Very fast-growing; much used as a stock upon which to graft epiphyllums and other low-growing cacti. Flowers borne periodically in immense numbers; 1½ inches wide, of a creamy white, with a green tinge. 10c, $1.00 per doz. Large standard stocks for grafting, pot-grown, 20c, $2.00 per doz.

**F. Bloo.** A larger, stouter shrubby plant than the preceding; spiny, with leaves often 5 inches long. The flowers are a soft pink-purple, very showy, from 1½ to 2 inches across. The fruit pear-shaped, 2 inches long. One of our latest imports. 15c and 25c.

**F. species.** New. This resembles somewhat the Lemon Vine, but is dwarf and much more delicate.
Flowers greenish-white about an inch across. 20c, $2.00 per doz.

PHYLLOCACTUS Hookeri. 50c.  
P. latifrons. Eroneously sometimes called "Night-blooming Cereus;" properly the "Queen Cactus." The largest of the genus, growing 8 to 10 feet high; the stems 4 or 5 inches broad, and flat. Flowers are a fine creamy-white, with a reddish tube, produced at night. 25c.  
P. roseus-superbus. 50c.

Furcraea foetida-gigantea.  

PITCAIRNIA Karwinskiana. This resembles a Bromelia or Tillandsia, with leaves up to 2 feet long. Flowers red, small, in dense racemes. Fine plants, 25c and 50c.  
P. xanthocalyx. $1.00.  
STAPELIA foetida. Toad Cactus. 25c.  

TILLANDSIA. Air Plant, or Wild Pine. A very large genus of ornamental plants of the easiest culture, requiring only to be attached to a block of wood and to be watered with the other plants. Tie with wire on rough bark; the plants hold water in their leaves. We list only native Florida species.

Collection S. Five plants, our choice, all labeled sent postpaid for 1c.  
Do not overlook discounts on page 2, par. 14.

TESTIMONIALS FROM FLORIDA PATRONS

Quay, Fla., February, 1911.—"Thanks to your good method in packing nursery stock, our box (which was delayed on route for two weeks) arrived in fine condition. I thank you for extras."  
MRS. M. H. ATWATER.

Tarpon Springs, Fla., January, 1911.—"I received the roses in good condition and am glad to say was very much pleased with the plants. They are so large and hard looking," etc.  
FLEDA HOPKINS.

Melbourne, Fla., January, 1911.—"The trees have arrived, and are beauties. They were packed splendidly and I am certainly pleased with your stock. Having received 900 other trees from several different growers gives me a good opportunity to judge, and I want to tell you that you have won a customer, and next year I shall likely want more."  
CHAS. E. HAUCH.

Melbourne, Fla., January, 1911.—"The trees came in good condition, and are satisfactory in every respect."  
JOHN M. MINOR.

Seawalls Point, Fla., November, 1910.—"The plants came in good order, in fact, as good as when packed up. Am well pleased."  
ED. L. HOSFORD.

Quincy, Fla., November, 1910.—"The box came in good time and opened up without a leaf having been crumpled! I am much pleased for your generosity and promptness."  
REBECCA WHITE.

Tampa, Fla., July, 1911.—"The guava plants were perfectly fresh on arrival and I do not think we could have got them in growth at all by removal to my place."  
V. B. MCLAVIN.

Cococnut Grove, Fla., July, 1911.—"Everything came in perfect condition and is thriving, except the Granadilla vine, which promptly died. I am much pleased with the service you have given me."  
H. W. LESTER.

Port Pierce, Fla., July, 1911.—"Please understand that I do not expect you to replace things that have died here, free of cost, as I do not hold you in the least responsible; your plants are all that could be desired, and if they wear out before the dates of guarantee, it is due to causes that are beyond your control."  
REVEREND FATHER GABRIEL.

St. Petersburg, Fla., October, 1910.—"Your shipment came safely and the plants never knew they had been transplanted. Not a leaf has wilted so far. I am very much pleased with all of them. Each is a fine specimen and richly worth all you ask for it. I thank you."  
W. S. CHAPMAN.
No order for less than 50 cts. accepted.

"But how beautiful they are, all and each after their kinds! What a joy for a man to stand at his door and simply look at them growing, leafing, blossoming, fruiting, without pause, through the perpetual summer, in his little garden of the Hesperides, where, as in those of the Phoenicians of old, 'Pear groves ripe on pear and fig on fig,' forever and ever."
